NEW ROUTE
To the Eastern Seaboard!
ONTARIO, SIMCOE & HURON
[illegible]
The new railway route across the Isthmus of Canada, from the foot of the Georgian Bay on Lake Huron, to Toronto, is completed, and a line of Boats, calling at Milwaukee and all the principal Michigan ports, has been chartered to run in connection with it.
The Steamers
KEYSTONE STATE, Captain RICHARDS, 1,600 tons,
LADY ELGIN, Captain CHAMBERS, 1,300 tons,
QUEEN CITY, Captain WILKINS, 1,300 tons,
Will form a Tri-Weekly Line between Chicago, Milwaukee and Collingwood, the Northern terminus of the Ontario, Simcoe and Huron Railway, by which passengers will reach New York in Seventy Hours from Chicago, and the Route being so arranged that Night Travel will all be on board First Class Boats, it will form the pleasantest route in existence to Eastern Cities.
The attention of Shippers of Freight, and Merchants generally, is especially invited to the Route, as by it shipments from New York will reach Michigan ports in from SIX TO TEN DAYS LESS TIME than by the old Route via the Erie Canal and steam around the Lakes.
Connections will be made with Steamers for Lake Superior and Green Bay.
An Office will be opened in Milwaukee at an early date. Meanwhile information may be had of Messrs. A. T. SPENCER & CO., Chicago, or of the undersigned.

IMPORTANT TO
Wholesale Grocers
AND TEA DEALERS.
JAMES KYLE, 114 Warren St., New York, furnishes to the trade all sizes of plain and fancy colored Tea Caddies, holding from 2 to 25 lbs., labelled, fac similes of the latest cargoes of green and black Teas, having every appearance of original packages, and being made neat and light, and so that the smaller ones will nest in the larger ones, can be transported to any part of the country at a small expense. Merchants from the South and West would find the plan of putting up Teas at home much cheaper, and more satisfactory, than to have them re-packed in New York; and extra fine Teas put up in 6, 8, 10 and 15 lb packages, will sell more readily, and at a better price, than by the chest. Fancy painted, lacquered and gilded Caddies, and Chinese Images, beautiful for window show, are also furnished. Dealers will please call and examine as soon as they arrive in the city, that time may be had to get them up to order, in time to ship with other goods. A List of Prices will be sent to any address, by mail, that may desire it.
Also, Agent for Thompson's Transparent Soap and Washing Compound; J. W. Reilly's Lemon Sugar, Pure Cream Tartar, Carb. Soda, Cooking Extracts, &c., &c. Sold cheap for cash. fe010 3mos SMP

WHAT IS A FYKE?
A FYKE IS A LONG BAG NET WITH FROM TWO to four hoops inside, with a funnel mouth through which the fish pass and cannot return. A wing from 9 to 15 feet long, extends from each side of the front hoop. The Fyke is used for taking fish in Sounds, Rivers, Lakes, Ponds, Creeks, &c., and is set so that it encompasses the ground where the fish run, by which large numbers are taken. They are made of various sizes, and cost from $4 to $40. They are simply constructed, and easily managed, and often pay for themselves at the first setting. Every person living in a position where they can be used, should have them. A large assortment, together with Seines, Castings, and Dip Nets, Seine Twine, Fishing Rods, Hooks, Lines &c., are kept on hand, or made to order by JOHN J. BROWN, 103 Fulton Street, N. Y.

Cash Music and Piano Store
OF
HORACE WATERS,
No. 333 Broadway, New York.
OPPOSITION TO MONOPOLY.
Music at Greatly Reduced Rates.
Notwithstanding the combination of music dealers to keep up the prices of non-copyright music, against the interests of native composers, and their refusal to extend to Mr. Waters the courtesies of the trade, he is making immense sales—having abundant evidence that he has public countenance and support in his opposition to the Great Monopoly, and in his efforts to aid Native Talent, and to adopt the National Currency. His stock of American and European music is immense, and the catalogue of his own publications is one of the largest and best selected in the United States. He has also made a Great Reduction in the prices of Pianos, Melodeons, and Musical Instruments of all kinds. Superior toned 6¼ octave Pianos for $175, $200 and $225, interior of as good quality, and instruments as strong and as durable as those which cost $500. Pianos of every variety of style and price up to $1000, comprising those of ten different manufactories; among them the celebrated modern improved Horace Waters' Pianos, and the first premium Æolian Pianos of T. Gilbert & Co's make, (owner of the Æolian patent.) Second-hand Pianos at great bargains. Prices from $40 to $150. Melodeons from five different manufactories, including the well known S. D. & H. W. Smith's melodeons, (tuned the equal temperament,) the best make in the United States. Prices $45, $60, $75, $100, $115, $125, and $150. Smith's Double Bank Melodeons, $200. Each Piano and Melodeon guaranteed. The best terms to the trade, schools, &c. 12½ per cent. discount to clergymen and churches. All orders promptly attended to. Music sent to all parts of the country, post-paid, at the reduced rates. General and select catalogues and schedule of prices of Pianos forwarded to any address, free of charge. feb14-3mosV&S

THE MADISON MUTUAL,
Located at Madison, Wisconsin.
This company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.
All losses promptly paid at the office as soon as proof is made thereon.
We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any others, consequently you will have no losses, the [illegible] of the [illegible], and all will be on an equal footing.
Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected positively by letting them alone.
Farmers, look to your own interest, and insure in a Farmers' Company.
We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of Insurance.
The best of references given as to the responsibility of the Company.

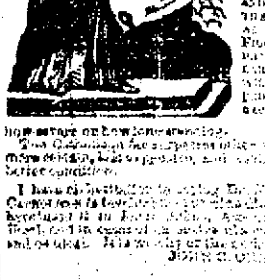
DR. J. B. MARCHISI'S
CELEBRATED CATHOLICON,
For the Relief and Cure of Suffering Females.



IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended, usually called
Female Complaints.
Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or how long standing.
This Catholicon has surpassed other remedies, in being more certain, less expensive, and leaving the system in a better condition.

IMPORTANT TO
Wholesale Grocers
AND TEA DEALERS.
JAMES MYLE, 114 Warren St., New York, furnishes to the trade all sizes of plain and fancy colored Tea Caddies, holding from 2 to 25 lbs., labelled, fac-simile of the latest cargoes of green and black Teas, having every appearance of original packages, and being made neat and light, and so that the smaller ones will nest in the larger ones, can be transported to any part of the country at a small expense. Merchants from the South and West would find the plan of putting up Teas at home much cheaper, and more satisfactory, than to have them re-packed in New York; and extra size Teas put up in 6, 8, 10 and 15 lb packages, will sell more readily, and at a better price, than by the chest. Fancy painted, lacquered and gilded Caddies, and Chinese Boxes, beautiful for window show, are also furnished. Dealers will please call and examine as soon as they arrive in the city, that time may be had to get them up to order, in time to ship with other goods. A List of Prices will be sent to any address by mail, that may desire it.
Also, Agent for Thompson's Transparent Soap and Washing Compound; J. W. Kelly's Lemon Sugar, Pure Cream Tartar, Carb. Soda, Cooking Extracts, &c., &c. Sold close for cash. feb10 3mos 3MP

WHAT IS A FYKE?
A FYKE IS A LONG BAG NET WITH FROM TWO to four hoops inside, with a funnel mouth through which the fish pass and cannot return. A wing from 9 to 15 feet long, extends from each side of the front hoop. The Fyke is used for taking fish in Sounds, Rivers, Lakes, Ponds, Creeks, &c., and is set so that it encompasses the ground where the fish run, by which large numbers are taken. They are made of various sizes, and cost from $4 50 to $30. They are simply constructed, and easily managed, and often pay for themselves at the first setting. Every person living in a position where they can be used, should have them. A large assortment, together with Seines, Castings, and Dip Nets, Seine Twine, Fishing Rods, Hooks, Lines &c., are kept on hand, or made to order by JOHN J. BROWN, 103 Fulton Street, N. Y.

Cash Music and Piano Store
OF
HORACE WATERS,
No. 333 Broadway, New York.
OPPOSITION TO MONOPOLY.
Music at Greatly Reduced Rates.
NOTWITHSTANDING the combination of music dealers to keep up the prices of non-copyright music, against the interests of native composers, and their refusal to extend to Mr. Waters the courtesies of the trade, he is making immense sales—having abundant evidence that he has public countenance and support in his opposition to the Great Monopoly, and in his efforts to aid Native Talent, and to adopt the National Currency. His stock of American and European music is immense, and the catalogue of his own publications is one of the largest and best selected in the United States. He has also made a Great Reduction in the prices of Pianos, Melodeons, and musical instruments of all kinds. Superior toned 6⅞ octave Pianos for $175, $200 and $225, interior of as good quality, and instruments as strong and as durable as those which cost $500. Pianos of every variety of style and price up to $1000, comprising those of ten different manufactories; among them the celebrated modern improved Horace Waters' Pianos, and the first premium Æolian Pianos of T. Gilbert & Co's make, (owner of the Æolian patent.) Second-hand Pianos at great bargains. Prices from $40 to $150. Melodeons from five different manufactories, including the well known S. D. & H. W. Smith's melodeons, (tuned the equal temperament,) the best make in the United States. Prices $45, $60, $75, $100, $115, $125, and $150. Smith's Double Bank Melodeons, $200. Each Piano and Melodeon guaranteed. The best terms to the trade, schools, &c. 12½ per cent. discount to clergymen and churches. All orders promptly attended to. Music sent to all parts of the country, post-paid, at the reduced rates. General and select catalogues and schedule of prices of Pianos forwarded to any address, free of charge. feb14-3mosV&3

WISCONSIN
Home Insurance Office,
No. 6 Kneeland's Block.
MILWAUKEE, WISCONSIN, MARCH [illegible], 1855.
INSURANCE EFFECTED UPON DWELLINGS, OFFICES, Stores and other Buildings, Household Furniture, Merchandise and other property, against
LOSS OR DAMAGE BY FIRE.
This is a new Company, organized the 30th of January last, on the mutual plan, with the privilege [illegible] of doing business on the Cash plan, upon either Fire or Marine risks; but for the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received [illegible] has induced the Directors to make a [illegible]. [illegible] that the [illegible] of the Eastern Companies [illegible].
[illegible] $50,000, and [illegible] and it is believed that, with proper care [illegible] selection of risks [illegible] this Company such a one as will generally be preferred.
The recent failures of several of the old Stock Companies, among the most prominent of which are the Protection and Columbus, although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence [illegible] more reliable and prominent insurers [illegible] plan of insurance, and have induced them [illegible] the day safe and reliable Companies are those conducted on the Mutual principle.
As it is the design of the Directors to do a profitable, rather than a large and hazardous business, the company will take none but [illegible] risks [illegible] rates as are deemed fully adequate to the risks. Agents are also instructed not to take to exceed [illegible] in any one risk, in Villages, within a circle of [illegible], which of course will prevent any great loss by one fire.
☞ Applications for Insurance respectfully solicited; agents wanted for the above Company.

Highly Important to Farmers.
The only Exclusive Farmers' Insurance Company in the West.
THE MADISON MUTUAL,
Located at Madison, Wisconsin.
THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of Dwellings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c. [illegible] for five years, at lower rates than most other responsible Companies.
All losses promptly paid at the office as soon as proof is made thereon.
We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any others, consequently you will have no losses, [illegible] of the [illegible], and all will be on an equal footing.
Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, stables, shops, and such like property. In this Company all such property is rejected entirely by having them above.
Farmers, look to your own interest, and insure in a Farmers' Company.
We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of Insurance.
The best of references given as to the responsibility of the Company.

Growth of Minnesota.

[illegible] Mississippi is now all alive with [illegible] crowds of emigrants to [illegible] Iowa and Western Wisconsin. [illegible] Gazette says that a thousand [illegible] daily, on their way [illegible] exchanges from the [illegible] State speak of the vast tide [illegible] which is now rushing up the Valley of the Mississippi. Minnesota, being farther off [illegible] than any of the adjacent [illegible] yet the greater part of this [illegible] Wisconsin and Iowa each [illegible] share. We learn from [illegible] of May 4th, that the steamboat [illegible] for the last 14 days of April, [illegible] in '51, 19 in '53, and 14 in [illegible] that the number of [illegible] the Upper Mississippi trade, [illegible] 7 in 1852, 32 in 1853 and 11 [illegible] in 1855—nearly all of the latter [illegible] presenting a capital [illegible] of dollars. On the 3d instant [illegible] steamboat arrivals at St. [illegible] in two days, landing some two [illegible] at that port.

[illegible] growth of Minnesota is of [illegible] interest to us in Wisconsin. [illegible]—The Richmond (Va.) *Whig* [illegible] following statement:

"[illegible] Grey Wigs of New York, whom [illegible] South admit to be conservative [illegible] are co-operating most cor- [illegible] with the Know-Nothings—the purpose [illegible] to put down Seward [illegible] doctrines."

This is only another evidence, in addition to the many hitherto given, of the identification of [illegible] party and Know-Nothing feeling in [illegible] country. This business that is called by the [illegible] Slavery papers "putting down Seward and [illegible] doctrines," is not likely to engage [illegible] of the freemen of the North a [illegible] when it is understood to mean utter [illegible] and acquiescence in such outrages as [illegible] invasion of Kansas and other [illegible]. We do not wonder at the de- [illegible] Know Nothingism at the North, or at its [illegible] South, now that we see the [illegible] those Southern papers which [illegible] the extension of Slavery acknowledge [illegible] the movement.

RAMBLES IN EUROPE--NO. 12.

The Cathedral of St. John—the Chapel in it of St. John the Baptist—Its Relics—other Churches—Genoese People—the Donkies—Exports—Jewelry and Iron Bedsteads—Ladies.

GENOA, March 6th, 1855.

The churches of Venice, in number and richness of architecture, together with the rich paintings and fine sculpture with which they are filled, are not less worthy of notice than her palaces. I shall only notice a few of them.

The Cathedral of St. Lorenzo, not only in antiquity, but in many other respects, ranks among the first. It was built in the eleventh century, and consecrated in 1118. There seems to be a strange mixture of styles in the architecture of this church—partly Corinthian and partly Gothic. In the interior is also observed another curious fact, that the walls exhibit a layer of white marble and then one of black. In the nave too, the columns are of a hard breccia, and the lower part of the shafts of white marble, standing on black bases.

The friezes are very ancient looking. They contain inscriptions of the date of the building of the church, how the city was founded by Janus I, King of Italy, the grand-son of Noah; *and* also how Janus II, *Prince of Troy,* took possession of it, having been founded by his great ancestor and namesake. And what is somewhat singular, yet true, these inscriptions are engraved in capital letters and exactly like those in use at that time.

But the finest portion of this church is the Chapel of St. John the Baptist. Into this no female is allowed to enter, except on one day in each year. This exclusion was imposed by one of the early Popes in retaliation upon the whole sex, as is supposed, for the wickedness of the daughter of Herodias. The tribune covering the sarcophagus in which are said to be the relics of that saint and martyr, is supported by four porphyry pillars. Eleven statues and a variety of bas reliefs adorn the external facade, and on the interior there are niches containing eight more.—Through the apertures of the marble sarcophagus, is seen an iron-bound chest in which the above relics alluded to are contained. On certain festivals this chest is taken out and carried at the head of the procession. In the treasury there is another relic called the *Sacro Catino,* being a part of the *spoils taken from* infidels in one of the crusades. This dish, so precious in the eyes of the Genoese, is thought by them to be composed of a single emerald. What makes it of so much value to them is a tradition, that it was once a gift from the Queen of Sheba to Solomon. It costs a five franc piece to get a peep at it, and as both Solomon and this *fair* Queen are decidedly old fogies at the present day, I concluded to keep my money.

But I will only name a few more churches worthy the traveller's attention, and he can examine these at his leisure. San Siro, Santa Maria de Carignano, Santa Gesu, Santa Matteo, Santa Maria de Castello and L'Annunciato—the last particularly struck my mind as being one of great beauty from its rich and elaborate gilding, and the superior quality of the marble pillars, entablatures and walls.

In 1805 Genoa went over to the French empire, but subsequently by the Congress of Vienna it was transferred to Victorio Emanuels, of the house of Savoy, whose successors have reigned as Kings over the country since. The Var established in the time of Augustus as the west bound of Italy, *is* still the boundary between France and this kingdom of Sardinia, extending as far east as the Magra. The King resides at Turin.

The whole country is a continued series of mountain terraces, valleys and ravines formed by spurs from the Appenines and maritime Alps.—Geographers, it is said, are not agreed where the Alps commence and Appenines end. The people of Sardinia are of mixed races, owing to the various revolutions and countries which held them under subjection. The Ligurian features and nationalities are however predominant.

The language of the Genoese is hardly understood by any one—especially a stranger. Like all the Italians they have a great fondness for music. At all times in the streets may be seen groups among the lower orders gathered together to hear straggling musicians play, dance, or perform some of their tricks of jugglery. There are a great many idlers around this city, having apparently nothing to do, less to care about, and *probably the idea has never entered their heads* that they were brought into the world for any particular purpose. A stone seat with a chance to lean, a few rays of the sun, and a penny's worth of *macheroni,* are sufficient to make them happy. But where they get this penny from I do not know. The clothes, if they could be called such, look as if they might have been the cast off garments of Noah, at the time he took to his ark, and worn by every generation since.—But as I understand at *Rome* and *Naples,* the lazzaroni occupy a sort of professional position, or perhaps might with greater propriety be reckoned among the trades. I will speak no farther of these here.

The streets of the city present sometimes a very busy appearance to an inhabitant of the new world—sights that appear strange and novel. There are very few carriages or vehicles of any kind. The most of the carrying is done upon the backs of donkeys and men. As it is a seaport of some considerable importance, it takes a large number of both to load and unload the vessels, and take the exports and imports to and from the city. The mules are very small indeed—many of them not larger than a yearling calf, yet they carry very heavy loads. I have seen them bringing to market, hay, wood, brick, wines in casks, and in fact everything else. They have saddles made for them on purpose, which seem unnecessarily burdensome, and over this is slung a sort of double basket like saddle bags, in which everything portable is carried. I have frequently met a train of donkeys loaded, coming down the serpentine road of a craggy mountain with their bells tingling and fancy trappings, followed by their driver.

At Nice I saw an every day affair which pleased me very much, it being the first time.—It was a country girl coming with a load of hay on a mule. I had a side view first and could not make out whether it was a stack moving *spiritually,* or whether there was animal life that caused locomotion. On getting round in front, I could see some long gray ears, and then I saw it was a mule covered completely up with hay, except this part of his head, and eyes, and astride of the load, as a man would ride, sat a chubby, fresh looking girl, with a straw hat on, the brim of which was nearly *two feet* wide, while the body of it was very small.

But the men in Genoa who act as carriers seem to be a distinct class. They are very dark, with black hair, low foreheads, and a dull, stupid look. They are mostly dressed alike. It consists of coarse pants, a coarse shirt, a red sash generally, or a strap around the waist, with a dirty red woolen cap, made like a gentleman's night cap, falling over behind or on the shoulder. Most of them go with bare feet—have a sort of dog trot, either with or without the burden, and carry enormous loads. But the few business men of Genoa, compared with western cities of the size, look intelligent and active. They excel in many of their articles of exportation—particularly in the manufacture of silks, damasks, velvets, paper, soap, artificial flowers, embroidery on cambric and muslin, jewelry and furniture.

I never saw finer or more splendid genuine jewelry of all descriptions, than can be found in the *Strada degli Orefici.* The work is of a superior quality in every variety of style and fashion. This street is sparkling with jewels and gold. It can be bought for a price of only about fifteen per cent above the weight; but it is necessary that a person should know what that is, or else he might be imposed upon.

But there is one article manufactured here, of whose good quality I can speak experimentally, and that is the iron bedsteads. In the first place, with all the ornaments which they put on them, making them appear to be made expressly for a palace, they come cheaper, are put up and taken down easier, moved from the wall round the room with a touch almost, but above all, the great merit is, in being the exact things *to sleep on.* The materials of course are very small, and can be taken easily apart. They are calculated for curtains—the top of the bedstead above the curtains being in the form of a crown, from which are suspended brass ornaments. I think if some enterprising countryman of ours, would get a pattern and introduce it, he *might make a fortune.* One thing would certainly be done by our good housewives—they would pitch all the old lumbering wooden bedsteads, with their big rickety joints, out of the windows, bed-cords, slats and all. The wires of which these bedsteads are made here, I should not think much exceeded one-third of an inch *in diameter.*

I saw plenty of ladies, but none carried in Sedan chairs as I hoped to see. But I am told the custom in riding in these, is not entirely *done away with.* Of these ladies, the following description of them by Romney in his journal, is with some exceptions, correct. In speaking of them, he says they "*have great ease in their action,* and walk extremely well. They are of good size, *fair,* but very pale, which is heightened by the dress they wear. It is a loose robe of calico or muslin, which goes over their heads like a veil, and over their shoulders and arms, like a capuchin. They let it fall over the forehead as low as the eyebrows, and twist it under the chin; they generally have one hand up almost to the chin, holding the veil with their fingers, beautifully disposed amongst the folds, and the other across the breast. *They are short waisted,* and have very long trains, which produce the most elegant flowing lines imaginable; so that with the beautiful folds of the veil or cloak, they are, when they move, the finest figures that can be conceived. When the veil is off, you see the most picturesque and elegant hair; it is braided at the back of the head, twisted round several times, beautifully varied, and pinned with a long silver pin."

The above applies with peculiar force to the masses, but the Uppertendom, I judge, has broken loose from this fashion of their head-dresses, and look more to Paris for a guide in these matters, than to their mothers. F.

The Niagara Suspension Bridge.

TO THE EDITORS OF THE SENTINEL:

In this morning's paper I observe a letter written by Mr. Roeser, who seems to have worked himself to fever heat, simply because Mr. Roebling has *not received the meed of praise* for his management in the construction of the Suspension Bridge at Elgin.* In reply, I would say, that Mr. Roebling has received credit in English, Canadian and American newspapers for his management of the work entrusted to him. Our friend perhaps never heard of the Queenston *Suspension Bridge* Bank, that was in existence some 15 years ago, the Vignette of whose Bills represented a Wire Suspension Bridge for Rail Road Cars to cross. The Bridge was planned at that time, but was not built for want of funds.

The one who is really entitled to the credit is Mr. ELLET, who succeeded in building the first one at Elgin, and the second at Queenston. The new bridge is built on the same principle as the first one, and being built immediately over it, Mr. Roebling has not had any great difficulty to contend with, having had men, money, and means at his command. The idea of his not having received any credit for the work, on account of his German origin, must have emanated in Mr. Roeser's head. I never heard that Mr. Ellet had received any more commendation than has been bestowed on Mr. Roebling, and yet Mr. E. is not a German. Yours,

AN ENGLISHMAN.

Milwaukee, May 8, 1855.

[Unless the little village on the Canadian side, at the west end of the Niagara Suspension Bridge, is called Elgin, we do not understand *the drift of the above communication.* Probably such is the case.—*Eds. Sentinel.*]

NARROW ESCAPE.—The Baker Vocalists, while crossing the Wisconsin river in a ferry boat, at Merrimac, on their way to this place, narrowly escaped from losing three of their company by drowning viz: Mr. J. C. Baker, his wife, and Mr. Geo. E. Baker.

It appears that after they had got a short distance from shore, into very swift current, where the water is from 17 to 20 feet deep, one of their wheel horses took fright, rushed forward and crowded the leading span over the front end of the boat, at the same time precipitating Mr. G. E. Baker into the current. He being a good swimmer, *after great exertion,* reached a snag some distance below, whence, after a rest of about ten minutes, he with difficulty succeeded in swimming ashore.

Mrs J. C. Baker, who was getting out of the carriage when the horse took fright, was violently thrown over the side of the boat by the wheel and was rapidly drifting down stream when her husband saw a portion of her shawl floating on the surface of the water, and not seeing her on board, he immediately plunged in, seized the shawl and began the work of saving the lives of himself and wife. He, much impeded by a heavy overcoat, drew Mrs B. along all the while under water, with one hand and swam with the other some distance, when knowing that she must soon breathe or perish, he caught hold of her arm and raised her above the water a moment, but was compelled to let her again sink, while he exerted his fast exhausting strength to reach the shore, which he accomplished with the last effort of his fainting energies. With great difficulty the horses were saved by the other members of the troupe, and we are happy to state that the company sustained the loss neither of life nor property. No blame is attached to the ferrymen, who behaved nobly and rendered invaluable aid.—[Baraboo Republic.

BIG PRICES.—We learn that George P. Delaplaine, Esq., has an offer of $12,000 for his residence and grounds being six lots adjoining the Capitol Square, to the South-west. The offer was not accepted.

Mr. Mills, on the corner opposite the Capitol House, asks $25,000 for the dwelling and three lots. He has been offered $22,500.

Judge Vilas recently refused $18,000 for his splendid residence, near the bank of Lake Mendota.—[Madison Democrat.

THE SEASON.—Spring is upon us in all its beauty. Farmers are all busy, and the prospect *for a good season* is remarkably fine. Winter wheat never looked better, and it is to be regretted that no more was sown last fall. There is fear of frost, otherwise fruit will be good. Farmers and travelers from the eastern States throng our streets. Lands are high, and selling rapidly. This year will see the greatest influx of active men from the eastern States Wisconsin has ever had.—*Janesville Free Press.*

REMOVAL.—Ira Miltimore has been removed as one of the trustees of the Blind Institute, and James Neil appointed in his place. No reasons, it is said, were assigned *for this removal,* and in the absence of any knowledge of the causes or influences which induced it, we shall not attempt to assign any. We think, however, Gov. Barstow is gaining little credit by his action in the matter. The trustees of this institution receive no pay for their services, and the removal of Mr. Miltimore, as well as the refusal to re-appoint the Rev. Mr. Foote, under the unanimous recommendation of his former associates in the board, looks more like a personal or political movement than a watchful regard for the interests of the institute.—[Janesville Gazette.

SHOCKING IGNORANCE.—At the Bottisham petty sessions the other day, a youth, whose vocation is to gather dung from off roads, was charged with helping himself pretty freely from a farmer's manure heap, when the *following colloquy* took place:

Magistrate.—'Do you know the Lord's Prayer?'

Boy.—'Noa!'

Magistrate.—'Where do boys go to who tell a lie?'

Boy.—'Home, as soon as he has filled his barrow.—*Ipswich* (Eng.) *Express.*

EPISCOPAL CHURCH.—The building on the lot owned by the Episcopal Society, on Washington Avenue, is being repaired and put in order for the purpose of holding services in it. The Rev. Mr. Britton has accepted the call to become pastor of the Episcopal Church here.—[Madison Democrat.

☞ The farmers from up country report winter wheat as looking well. There will be a large increase in the amount of spring crops put in this year over last—probably more than double that of last year. We have an excellent market here for all that can be raised.—[La Crosse Republican.

The "Straw" of the Drowning Man!

Slavery received its first "home thrust" when the Compromise Measures of 1850 were enacted. It triumphed in those Measures, unquestionably; but it was a triumph which aroused the slumbering anger of the People. But the "vital stab" (which, like the first, came from the hands of its *friends*) was the passage of the Nebraska iniquity. That constituted the last drop in the bitter cup which had been prepared for the North, and made further forbearance a crime.

Nothing but the most inexplicable infatuation could have induced the enactment of that measure. What preceded it was hard to be borne.—But it *was* borne, partly from indolence, and partly from faith in the promise that it was to be a "final settlement" of the vexed question. This promise was implicitly relied upon by many, and many more desired to believe it made to be kept. Hence the almost universal "acquiescence" of the People in a series of measures which should (and did, in part) have stamped its authors with enduring infamy and perpetual banishment.

But this "acquiescence," proffered as a peace-offering, and pointed to as a guarantee of the good faith of the North, was *received as new proof of* subserviency, and used as an excuse for a more unjustifiable encroachment that had ever before been dreamed of, even by the most insolent apologist of Slavery. The Nebraska bill was passed, and the North was again insulted and humiliated. But *this* time not with impunity. In the hour in which that bill *received* the signature of the President the death-knell at once of the Administration and of the Slave Power was sounded. From that day to this, from Maine to Iowa, the People with unparalleled unanimity and emphasis, have been writing verdicts of condemnation against the men who have violated solemn Compacts and made a piratical War upon Freedom.

The Slave Power, and its drivelling, sneaking, cowardly allies, *feel the rebuke,* and *realize,* fully, that they are hopelessly doomed, *unless succor comes to them from some quarter hitherto untried.*

This succor they hope for from the "Hindoos." That Order, in this State, is controlled by "Silver Grays"—the "Union Savers" of '50, whom the People "spewed out of their mouth" for their pusillanimity and treachery. The same class of men are insidiously seeking (if they have not already secured) the control of the Order elsewhere. Slavery—which has been pilloried and lashed by the People in every Free State in the Union—is encouraged by the strenuous efforts the High Priests of that Order are making to accomplish this promised result. It is the "straw" at which they catch. It is their only hope; but it is so inspiriting, that the *dying howl* of Slavery has been already turned into a shout of anticipated triumph.

MEN OF THE NORTH! Will you suffer yourselves to be thus made the Slaves of Slavery—the cat's paws of "Dough-Faces" and Demagogues—the pliant instruments of the men whom you have once scourged for their betrayal of HUMANITY and FREEDOM? Pause, we beseech you, ere it is too late. Liberty courts the light. Slavery is among the "hidden things of darkness" against which we are warned by inspiration.—[Albany Ev. Journal.

(From the N. Y. Commercial.)

THE IMPORTANCE OF CORKS.—Though the prohibitory liquor law, if it should prove to be constitutional, may somewhat abridge the operation of "drawing the cork," other events seem to be giving importance, at least in the estimation of the Washington Union, to the growth of the cork tree and the cultivation of the domestic cork trade. That print announces that the Government in Washington has received from the South of Europe a hogshead full of of the acorns of the cork oak, which it is distributing through the middle and Southern states for experiment, and to test their adaptation to this climate. The Union thinks the experiment "will be a subject of great national importance, and that plantations should be established in various parts of the country for the purpose of growing this useful substance, *particularly in the event of a war between this country and Europe, in consequence of which the supply would be cut off.*" Whereupon the National Intelligencer humorously remarks:

Now, having long since learned that the Union does not choose to be understood by any body without the preliminary labor of study, it struck us on reading this official announcement about the propagation of the cork tree that there was a political meaning in it, if one would, as Shakspeare says, "observingly distil it out." There was evidently a kernel in this nut, if one could get at it; and we think we have it.

After pondering this curious paragraph about corks, it occurred to us that the country of the cork tree is Spain, and straightway, of course, we connected this idea with our Spanish relations; and, after some further thought, we educed from the Union's paragraph about the naturalization of the cork tree, a more encouraging idea of the pacific feeling and hopes of our Government than we have been able to extract from its professed explanation (*lucus a non lucendo*) of Saturday. We arrived at our *comforting* conclusion thus: The Government is sensible how great an inconvenience it would be to the country to have its supply of corks cut off by a foreign war.

Spain is the country from which we are chiefly supplied, and as Spain is the country with which we are most likely to be involved, it is proper, as well on the general principle of national independence as for the particular emergency, that we should be rendered independent of importation by naturalizing the tree in our country; and thus this large judicious of the importation of the cork tree acorns. Further: *the cork oak (quercus suber)* does not attain its growth, so as to mature its *cortex,* in *less than forty or fifty years;* and we argue, therefore, that, as the Government is providing by the planting of the tree for the interruption which a Spanish war will cause in our supply of corks, the President does not expect war to ensue much before our exotic trees shall come to maturity—namely, fifty years.

We think we have made out a good prospect of a long peace, much clearer than the Union, from its reasoning, has made out the probability of an early war. Q. E. D.

The Wheat Crop—Prospect for Farmers.

For a series of years after the settlement of this State, the failure of the winter wheat crop was hardly known. Very little spring wheat was sown. This state of things was interrupted by several years during which winter wheat was nearly spoiled by rust or being winter killed.—Farmers came to regard it as unsafe to sow much, and sowed hedge-row instead, very generally. For a year or two past, however, there has been a change. Last year, and year before, the crop was good, although but comparatively little was sown. The present spring the appearance of the crop is decidedly favorable. The unusual snow of the past winter and the tardy approach of spring contributed to the result; and it is extremely probable that winter wheat will be a sure crop for a succession of years to come. Entertaining this belief, we hope that farmers will make preparation for sowing it more extensively the coming fall, than has been done for several years past. If the ground is well prepared and the wheat put in during the latter part of August, or the month of September, a bountiful reward will in all probability ecrue.

There never was a time when the farmers of Wisconsin had brighter prospects before them than at present. Their broad acres are fat with the vegetable mould that has been accumulating for centuries, in preparation for the advancing hosts of civilization. Easy of culture, teeming with the elements of productiveness, unlike the cold and sterile soil of New England, the earth rewards the husbandman with a many fold increase for comparatively little toil in preparing it. The prices of grain are high. There is little probability of a decline. The hopes of speedy peace in Europe seems daily growing less. The richest grain producing portions of the continent, upon whose surplus the millions of Western Europe have relied for food as well as upon the harvests of America, lie within the dominions of Russia. That source of supply is therefore likely to be cut off, and America must supply the defect. Hence the continuance of highly remunerative prices is extremely probable. With such prospects before them our farmers will become encouraged to labor; and to leave as few tillable acres as possible, in unprofitable idleness.—*Madison Journal.*

AN ACT for the protection of lumbermen.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Section 1. That any person that shall willfully and without consent of the owner, take and appropriate to his own use any pine logs or other lumber, having thereon the marks of any other person or persons than those of the person so taking them, or who shall obliterate the marks of the owner of such logs or lumber, the same being upon the banks of or afloat in any of the streams of this state, out of which logs or lumber are usually driven, shall be deemed guilty of the crime of larceny, and shall be subject to all the provisions of chapter 134 of revised statutes, applicable to said crime.

Sec. 2. Chapter 99 of the General Laws of A. D. 1854, entitled "an act for the protection of logs and lumber found floating on the Wisconsin river," is hereby repealed.

Sec. 3. This act shall take effect from and after its passage.

C. C. SHOLES,
Speaker of the Assembly.
JAMES T. LEWIS,
Lieut. Gov. and President of the Senate.
Approved, March 29, 1855.
WM. A. BARSTOW.

GRAND RAPIDS.—On the 27th ult., 140 rapids pieces of lumber, were run over the Grand Rapids, averaging 22,000 to a piece; equal to 3,080,000 feet in one day. The lumber is passing these rapids at about the same rates daily.—*Wisconsin Pinery, May 5th.*

POLICE COURT.--May 8.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

Mary Conners was tried and found guilty of assault and battery upon Anna Randall, and fined $10.00 and costs.

COMPLAINT AGAINST A SCHOOL TEACHER.—A man named Scofield, accompanied by his daughter, a little girl named Esther, made application for a warrant against the female teacher in the Second Ward School, for ill treating the girl.—The little girl, it appeared from the statement of the applicant, was a few minutes too late in the morning, and for this was beaten with a ruler.—The arm was exhibited in court, and was badly marked and bruised. The Police Justice recommended the father to lay his case before the School Commissioners, and he left for that purpose.

OPERA TO-MORROW NIGHT.—The Opera of Norma will be performed for the second time to-morrow evening, by our Musical Society, for the benefit of their accomplished conductor, Mr. BALATKA. We hope to see, on this occasion, one of the largest and most brilliant audiences of the season. Mr. BALATKA certainly deserves a flattering and substantial benefit at the hands of our music loving public.

PROMENADE CONCERTS.—We have been for some time aware that a project was on foot to establish in our City a regular series of Promenade Concerts, similar to those so much enjoyed in Europe, but we did not think it was so near its consummation as we find to be the case. We learn from Mr. OTTO RUPPIUS, who is at the head of the enterprise, and who brings very flattering letters from Louisville, Ky., where he has formerly resided, that he will probably be able to commence next week. This gentleman seems to possess the energy and tact necessary to make the project successful. The design being to furnish music of varied character, Operatic Pieces, brilliant Waltzes and Polkas, &c., executed by a strong and well-drilled Orchestra, and this in a large hall, fitted with seats placed conveniently, so that parties may sit, or stand, or walk, or dance at will, or enjoy conversation, or refresh themselves with delicacies withal—all this, if carried out as we have reason to suppose that it will be, will make a very popular resort for our music loving citizens, and we very cordially wish it success.

KEYSTONE STATE.—The fine steamer *Keystone State,* Capt. J. S. RICHARDS, chartered for the season in the Collingwood Line, arrived yesterday afternoon from Erie, where she has wintered, and came up the river to Dousman's dock where she now lies, and which dock she will leave for Chicago this morning at about 8 o'clock, at "reduced rates of fare" as the bills say.

The *Keystone State* is in "tip top" order, and looks as handsome as when she first came into port, being then the finest boat running around the lakes. In the new line in which she is chartered we do not doubt that she will vindicate her reputation as a fast and favorite boat.

The *Keystone State* brings 785 stoves, 46 cauldron kettles, and 3 bbls. sad-irons, to LANSING BONNELL, and 17 pieces machinery for owners on board

FROM OGDENSBURGH.—The propeller *Lady of the Lake,* Capt. ROSSMAN, is the first steam vessel in from beyond the Welland Canal. She arrived yesterday afternoon, having left Ogdensburgh on the 4th, and came along in good time. The *Lady of the Lake* started with over 200 passengers, they and their baggage making most of the cargo. They are nearly all Eastern people, coming west for homes, and the majority are left at Sheboygan, Port Washington and this city.

Capt. ROSSMAN reports having met the propeller *Prairie State* at the Beaver Island, and the *Forest Queen* above Presque Isle. At Presque Isle he saw on the pier, the goods brought up by the *Niagara* last winter (which propeller went ashore in Presque Isle bay). The goods were in a very bad condition. The steamer *Fashion* was there and men were at work pumping out the schooner *Grand Turk.* The *Niagara* had been raised, and gone south.

RACING ON WEST WATER STREET.—We learn from a gentleman doing business on West Water street, that owners of "fast" horses are in the habit occasionally, of showing off their pieces on that street, without regard to the City Ordinances, or to the safety to life and limb of the residents along that thoroughfare. Yesterday morning a regular race, with "hi! hi!" accompaniments came off on that street. We suggest that the Marshal take a walk over there, and carry a copy of the City Ordinance with him.

PIANOS.—Attention is invited to the advertisement of F. C. MENDE, Spring St., of the pianos of which he is the agent, and particularly to the certificate from the London Exhibition in relation to the instruments for sale by him.

CLOTHING.—T. F. MENDE, Spring St., with the philanthropic desire to provide garments for all people, informs the readers of the *Sentinel* of his whereabouts and his stock, so that they may profit by it. His advertisement will be found in its place.

WATERTOWN R. R. DEPOT.—Workmen were busy yesterday in laying out the ground for the depot of the Mil. & Watertown R. R., on the lot north of the freight depot of the Mil. & Miss. R. R. Co. The building will be about 240 ft. long by 40 in width, and is, even now, much needed for the increasing business of the road.

REMOVAL.—By his advertisement, it will be seen that A. F. CLARKE has removed his real estate office from Wisconsin St. to No. 178 East Water St.

STEPPING ASIDE.—When the new brick stores walk into East Water street, the old frame ones generally walk off, making good headway to some new location on less frequented streets; but ATHEARN'S extensive tobacco warehouse does not take that course. It only steps aside into Buffalo st., and leaves room for the new comer, while it enables the proprietors to continue business. The new buildings will be very sightly ones.

REAL ESTATE SALES.—Mr. J. Lockwood has sold to Mr. J. B. Green, of Cincinnati, 23 acres of land adjoining Gliddon & Lockwood's addition, in the First Ward of this city, for $1000 per acre. The same land was purchased a year ago for $200 per acre.

Lot 11, block 19 in the First Ward, was sold by Mr. Newhouse, to Messrs. Zellner & Bonns for $5500.

FROM CHICAGO.—The steamers *Traveller* and *Cleveland* both arrived yesterday afternoon from Chicago, bringing a large amount of freight, though but *few passengers.* The *Traveller* went on to Sheboygan, and returns this morning.

WISCONSIN FARMER.—The office of this excellent farmers' paper has been removed to Madison, where all letters and papers should be addressed.

UNITED STATES COURT.—The U. S. District Court adjourned Monday evening till the first Monday in June.

DWARF TREES.—A fine lot of dwarf standard trees are to be seen at HISLOP'S. See advertisement.

ENGINE COMPANY, No. 5.—The following resolution embodying a well-deserved compliment to the late Foreman of No. 5, was adopted at a meeting of the Company, Monday evening.

Resolved, That whereas Mr. Joseph Sprague, after having been a member of the Fire Department of Milwaukee seven years, and Foreman of this Company two years; the Fire Department have done themselves credit in electing him 2d Assistant Engineer.

Resolved, That while we deeply regret parting with him as an officer of this company, in doing so he has our entire confidence and support in the discharge of the duties of his new office

IMMIGRATION.—The rush of immigration to the North-west through our city continues to flow on unabated. At a moderate calculation, from eight hundred to one thousand persons pass through daily. Our packet boats are full to overflowing every trip. There seems to be a perfect outpouring of 'down easters,' a slight sprinkling of Irish and German, and a large proportion are bound for Minnesota, through Northern Iowa and Wisconsin attract a share. At this rate, all the good and valuable locations that are accessible in Minnesota will be absorbed this year, and then the wave will roll back, filling up equally as good a country, and in many respects more desirable, having a better soil, and being nearer markets.—Northern Iowa and Western Wisconsin have still much good vacant land lying contiguous to the Mississippi, and have a climate equally healthy with Minnesota.—[Galena Gazette, May 7th.

MURDER AND CONVICTION.—It seems that some weeks ago, a father and son—Germans—had a claim difficulty with a man in St. Croix county, Wisconsin, in which the latter was killed. The murderers have just been tried by the proper Court at Hudson, the father was sentenced to the State's prison for life, and the son for a period of years. We have neither the names of the parties nor any further particulars—the Hudson papers having as yet kept dark, so far as we have seen in regard to the affair.—*Minnesotian, May 4th.*

IMMIGRATION.—The number of persons going into the country northwest of us is immense.—Those who pass up the river by steamboat may be estimated, but we are told, that still larger numbers go in with their own teams by land.—The accession of population to that part of the country this year will probably be not less than two hundred thousand souls. A very large proportion of those we see are Americans.—[Galena Adv. 24th.

MARRIED.

In St. Paul's Church, May 8th, by Rev. Dr. Arnett, Rev. JAMES A. WOODWARD, Rector of St. Andrew's and St. Mary's Churches, Chester Co., Pa., to Miss ELIZABETH KISSAM, of Milwaukee.

DIED.

In this city, at 5 P. M., yesterday, at the residence of his father, James K. Marshall, CHARLES T. MARSHALL, aged 29 years.

The friends of the family are invited to attend the funeral at the North Presbyterian Church, corner Milwaukee and Martin Sts., at 5 o'clock P. M. to-day.

MARINE INTELLIGENCE.

FROM OSWEGO.—The staunch bark *Merrimac,* Capt. DAGGETT, from Oswego, rode out the gale, and came in yesterday, bringing 800 bbls and 10,000 bags salt, for J. MCKAY.

FROM CLEVELAND.—The large schr. *J. H. Drake* arrived yesterday with 463 tons coal.

ARRIVED.—By private despatch last night, we learn that the brig *J. McBride,* from this port, arrived at Buffalo yesterday.

Arrived at Buffalo, 4th and 5th—

Prop. Saginaw, Plymouth, Nile and Dunkirk.

Cleared for Milwaukee same days—

Stmr. Lady Elgin, Schrs. J. Patton, Lady of the Lake and Fairfield.

FROM LAKE SUPERIOR.—The Sault Ste. Marie Canal is so far *completed as to be ready to let* in the water and pass vessels. The Prop. Manhattan was to leave the Sault on the 4th inst. for Ontonagon, with every prospect of getting through, as the navigation was clear at the foot of the Lake, as far as the eye could reach.

SAUT STE. MARIE.—Navigation is open to Saut St. Marie. The *North Star* has been up and returned, without meeting with any difficulty.

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, May 9, 1855.

RECD BY MIL. & MISS. R. R., May, 7th:—85 bbls flour, 8951 bus wheat, 179 bus rye, 215 bus potatoes, 489 bus corn, 600 bus oats, 111 bus barley, 2 bbls pork, 5 bbls hams, 6 bbls highwines, 18 bales (2350 lbs) wool, 4 bbls eggs, 2 hides.

RECD BY MIL. & WAT. R. R.— 111 bbls flour, 469 bus wheat, 1004 bus potatoes, 460 lbs hides, 17 bus beans, 1 car hoop poles.

There was little change in the market yesterday, till after the news by the *Asia* arrived, and the lots at depot were disposed of. Spring Wheat brought 1,58a1,66, and winter 1,65a1,78. We note also a sale of 11,600 bus mixed at 1,57, and 2200 bus white winter at 1,65, both free on board.

The *Asia's* news was issued by us in an extra at about 3½ P. M., and gave confidence to dealers, and we shall probably have numerous transactions to notice; 500 bbls fancy flour, State Mills, sold in the morning at 8,86, and the same amount of the same brand, after the steamer, brought 8,75, inspection guaranteed. Also sales of 1060 bbls No. 1 flour at 8,80, and 700 bbls at 8,70.

We note no change in other articles of grain than wheat. Oats come in more freely, with sales at 45a48.

HOLLOWAY'S PILLS.—Debilitated Constitutions.—The wonderful power possessed by these Pills, are such, that they perform the most astonishing cures by restoring health when all other means fail; cases of debilitated constitutions by their use are completely invigorated, the delicate and weak are made strong. The daughter entering into womanhood, or the mother at the turn of life alike derive unspeakable benefit by the use of this mighty medicine. It is also, recommended to the Citizens of the Union as an effectual remedy for general derangements of the system.

THE GOOD SAMARITAN.

A little girl crossing Broadway, above the mound, a day or two ago, was knocked down and badly bruised by the reckless driving of a drunken brute, who immediately put whip to his horse and made off. Several persons ran to see if the child was hurt. Whilst some cursed the driver—some pitied the child, and others wondered who she was—an old countryman got down from his wagon, drew from his pocket a bottle of Mustang Liniment, bathed the wounds upon the child, and carried her in a state of insensibility, to a neighboring house, which proved to be her home. Yesterday he had the satisfaction to see her quite well. "Ah!" said the old man, "I never knew it to fail—I always carry a bottle in my pocket;" and so he does.—*St. Louis Intelligencer.*

DR. C. P. FITCH,
Dentist,
(LATE OF NEW YORK CITY,)

HAS THE PLEASURE OF ANNOUNCING TO THE Citizens of Milwaukee, that he has opened Rooms in the

Law Buildings, Wisconsin Street,
FOR DENTAL OPERATIONS.

DR. F. introduces to this community the New Method of constructing Artificial Dentures on Platinum, called

DR. J. ALLEN'S
Continuous Gum Work,

combining cleanliness, great beauty, with life-like expression, strength, utility, and restoration of the form and contour of the face. This work is unequalled, and stands preeminently first, and will sooner or later take the precedent over the various kinds of Artificial Dentures manufactured in this or any other country. Specimens may be seen at his Room any time during office hours.

After twelve years experience in dental practice, Dr. F. takes great pleasure in warranting all operations in the mouth, such as Gold Stoppings, Gold Plates, Teeth on Pivots, Teeth regulated, cleansed and extracted, &c.

Strict attention will be paid to all diseases arising from or in any way connected with decayed teeth. Also, counsel given in reference to the management of children's teeth. Advice and counsel given without charge.

Office Hours from 8 A. M. to 1 P. M., from 2 to 6 P. M., and from 7 to 9 P. M.

FOREIGN CORRESPONDENCE OF THE SENTINEL.

RAMBLES IN EUROPE—NO. 12.

The Cathedral of St. John—the Chapel in it of St. John the Baptist—Its Relics—other Churches—Genoese People—the Donkies—Exports—Jewelry and Iron Bedsteads—Ladies.

GENOA, March 6th, 1855.

The churches of Venice, in number and richness of architecture, together with the rich paintings and fine sculpture with which they are filled, are not less worthy of notice than her palaces. I shall only notice a few of them.

The Cathedral of St. Lorenzo, not only in antiquity, but in many other respects, ranks among the first. It was built in the eleventh century, and consecrated in 1118. There seems to be a strange mixture of styles in the architecture of this church—partly Corinthian and partly Gothic. In the interior is also observed another curious fact, that the walls exhibit a layer of white marble and then one of black. In the nave too, the columns are of a hard breccia, and the lower part of the shafts of white marble, standing on black bases.

The friezes are very ancient looking. They contain inscriptions of the date of the building of the church, how the city was founded by Janus I, King of Italy, the grand-son of Noah; and also how Janus II, Prince of Troy, took possession of it, having been founded by his great ancestor and namesake. And what is somewhat singular, yet true, these inscriptions are engraved in capital letters and exactly like those in use at that time.

But the finest portion of this church is the Chapel of St. John the Baptist. Into this no female is allowed to enter, except on one day in each year. This exclusion was imposed by one of the early Popes in retaliation upon the whole sex, as is supposed, for the wickedness of the daughter of Herodias. The tribune covering the sarcophagus in which are said to be the relics of that saint and martyr, is supported by four porphyry pillars. Eleven statues and a variety of bas reliefs adorn the external facade, and on the interior there are niches containing eight more.—Through the apertures of the marble sarcophagus, is seen an iron-bound chest in which the above relics alluded to are contained. On certain festivals this chest is taken out and carried at the head of the procession. In the treasury there is another relic called the *Sacro Catino*, being a part of the spoils taken from infidels in one of the crusades. This dish, so precious in the eyes of the Genoese, is thought by them to be composed of a single emerald. What makes it of so much value to them is a tradition, that it was once a gift from the Queen of Sheba to Solomon. It costs a five franc piece to get a peep at it, and as both Solomon and this *fair* Queen are decidedly old fogies at the present day, I concluded to keep my money.

But I will only name a few more churches worthy the traveller's attention, and he can examine these at his leisure. San Siro, Santa Maria de Carignano, Santa Gesu, Santa Matteo, Santa Maria de Castello and L'Annunciato—the last particularly struck my mind as being one of great beauty from its rich and elaborate gilding, and the superior quality of the marble pillars, entablatures and walls.

In 1805 Genoa went over to the French empire, but subsequently by the Congress of Vienna it was transferred to Vittorio Emanuele, of the house of Savoy, whose successors have reigned as Kings over the country since. The Var established in the time of Augustus as the west bound of Italy, is still the boundary between France and this kingdom of Sardinia, extending as far east as the Magra. The King resides at Turin.

The whole country is a continued series of mountain terraces, valleys and ravines formed by spurs from the Appenines and maritime Alps.—*Geographers, it is said, are not agreed* where the Alps commence and Appenines end. The people of Sardinia are of mixed races, owing to the various revolutions and countries which held them under subjection. *The Ligurian features* and nationalities are however predominant.

The language of the Genoese is hardly understood by any one—especially a stranger. Like all the Italians they have a *great fondness* for music. At all times in the streets may be seen groups among the lower orders gathered together to hear straggling musicians play, dance, or perform some of their tricks of jugglery. There are a great many idlers around this city, having apparently nothing to do, less to care about, and probably the idea has never entered their heads that they were brought into the world for any particular purpose. A stone seat with a chance to lean, a few rays of the sun, and a penny's worth of *macheroni*, are sufficient to make them happy. But where they get this penny from I do not know. The clothes, if they could be called such, look as if they might have been the cast off garments of Noah, at the time he took to his ark, and worn by every generation since.—But as I understand at *Rome* and *Naples*, the lazzaroni occupy a sort of professional position, or perhaps might with greater propriety be reckoned among the trades. I will speak no farther of these here.

The streets of the city present sometimes a very busy appearance to an inhabitant of the new world—sights that appear strange and novel. There are very few carriages or vehicles of any kind. The most of the carrying is done upon the backs of donkeys and men. As it is a seaport of some considerable importance, it takes a large number of both to load and unload the vessels, and take the exports and imports to and from the city. The mules are very small indeed—many of them not larger than a yearling calf, yet they carry very heavy loads. I have seen them bringing to market, hay, wood, brick, wines in casks, and in fact everything else. They have saddles made for them on purpose, which seem unnecessarily burdensome, and over this is slung a sort of double basket *like* saddle bags, in which everything portable is carried. I have frequently met a train of donkeys loaded, coming down the serpentine road of a craggy mountain with *their bells tingling* and *fancy* trappings, followed by their driver.

At Nice I saw an every day affair which pleased me very much, it being the first time.—It was a country girl coming with a load of hay on a mule. I had a side view first and could not make out whether it was a stack moving *spiritually*, or whether there was animal life that caused locomotion. On getting round in front, I could see some long gray ears, and then I saw it was a mule covered completely up with hay, except this part of his head, and eyes, and astride of the load, as a man would ride, sat a chubby, fresh looking girl, with a straw hat on, the brim of which was nearly two feet wide, while the body of it was very small.

But the men in Genoa who act as carriers seem to be a distinct class. They are very dark, with black hair, low foreheads, and a dull, stupid look. They are mostly dressed alike. It consists of coarse pants, a coarse shirt, a red sash generally, or a strap around the waist, with a dirty red woolen cap, made like a gentleman's night cap, falling over behind or on the shoulder. Most of them go with bare feet—have a sort of dog trot, either with or without the burden, and carry enormous loads. But the few business men of Genoa, compared with western cities of the size, look intelligent and active. They excel in many of their articles of exportation—particularly in the manufacture of silks, damasks, velvets, paper, soap, artificial flowers, embroidery on cambric and muslin, *jewelry* and *furniture*.

I never saw finer or more splendid genuine jewelry of all descriptions, than can be found in the *Strada degli Orefici*. The work is of a superior quality in every variety of style and fashion. This street is sparkling with jewels and gold. It can be bought for a price of only about fifteen per cent above the weight; but it is necessary that a person should know what that is, or else he might be imposed upon.

But there is one article manufactured here, of whose good quality I can speak experimentally, and that is the *iron* bedsteads. In the first place, with all the ornaments which they put on them, making them appear to be made expressly for a palace, they come cheaper, are put up and taken down easier, moved from the wall round the room with a touch almost, but above all, the great merit is, in being the exact things to sleep on. The materials of course are very small, and can be taken easily apart. They are calculated for curtains—the top of the bedstead above the curtains being in the form of a crown, from which are suspended brass ornaments. I think if some enterprising countryman of ours, would get a pattern and introduce it, he might make a fortune. One thing would certainly be done by our good housewives—they would pitch all the old lumbering wooden bedsteads, with their big rickety joints, out of the windows, bed-cords, slats and all. The wires of which these bedsteads are made here, I should not think much exceeded one-third of an inch in diameter.

I saw plenty of ladies, but none carried in Sedan chairs as I hoped to see. But I am told the custom in riding in these, is not entirely done away with. Of these ladies, the following description of them by Romney in his journal, is with some exceptions, correct. In speaking of them, he says they "have great ease in their action, and walk extremely well. They are of good size, fair, but very pale, which is heightened by the dress they wear. It is a loose robe of calico or muslin, which goes over their heads like a veil, and over their shoulders and arms, like a capuchin. They let it fall over the forehead as low as the eyebrows, and twist it under the chin; they generally have one hand up almost to the chin, holding the veil with their fingers, beautifully disposed amongst the folds, and the other across the breast. They are short waisted, and have very long trains, which produce the most elegant flowing lines imaginable; so that with the beautiful folds of the veil or cloak, they are, when they move, the finest figures that can be conceived. When the veil is off, you see the most picturesque and elegant hair; it is braided at the back of the head, twisted round several times, beautifully varied, and pinned with a long silver pin."

The above applies with peculiar force to the masses, but the Uppertendom, I judge, has broken loose from this fashion of their head-dresses, and look more to Paris for a guide in these matters, than to their mothers.

The Niagara Suspension Bridge.

TO THE EDITORS OF THE SENTINEL:

In this morning's paper I observe a letter written by Mr. Roeser, who seems to have worked himself to fever heat, simply because Mr. Roebling has not received the meed of praise for his management in the construction of the Suspension Bridge at Elgin.* In reply, I would say, that Mr. Roebling has received credit in English, Canadian and American newspapers for his management of the work entrusted to him. Our friend perhaps never heard of the Queenston Suspension Bridge Bank, that was in existence some 15 years ago, the Vignette of whose Bills represented a Wire Suspension Bridge for Rail Road Cars to cross. The Bridge was planned at that time, but was not built for want of funds.

The one who is really entitled to the credit is Mr. ELLET, who succeeded in building the first one at Elgin, and the second at Queenston. The new bridge is built on the same principle as the first one, and being built immediately over it, Mr. Roebling has not had any great difficulty to contend with, having had men, money, and means at his command. The idea of his not having received any credit for the work, on account of his German origin, must have emanated in Mr. Roeser's head. I never heard that Mr. Ellet had received any more commendation than has been bestowed on Mr. Roebling, and yet Mr. E. is not a German.

Yours,

AN ENGLISHMAN.

Milwaukee, May 8, 1855.

[Unless the little village on the Canadian side, at the west end of the Niagara Suspension Bridge, is called Elgin, we do not understand the drift of the above communication. Probably such is the case.—*Eds. Sentinel.*]

NARROW ESCAPE.—The Baker Vocalists, while crossing the Wisconsin river in a ferry boat, at Merrimac, on their way to this place, narrowly escaped from losing three of their company by drowning viz: Mr. J. C. Baker, his wife, and Mr. Geo. E. Baker.

It appears that after they had got a short distance from shore, into very swift current, where the water is from 17 to 20 feet deep, one of their wheel horses took fright, rushed forward and crowded the leading span over the front end of the boat, at the same time precipitating Mr. G. E. Baker into the current. He being a good swimmer, after great exertion, reached a snag some distance below, whence, after a rest of about ten minutes, he with difficulty succeeded in swimming ashore.

Mrs J. C. Baker, who was getting out of the carriage when the horse took fright, was violently thrown over the side of the boat by the wheel and was rapidly drifting down stream when her husband saw a portion of her shawl floating on the surface of the water, and not seeing her on board, he immediately plunged in, seized the shawl and began the work of saving the lives of himself and wife. He, much impeded by a heavy overcoat, drew Mrs B. along all the while under water, with one hand and swam with the other some distance, when knowing that she must soon breathe or perish, he caught hold of her arm and raised her above the water a moment, but was compelled to let her again sink, while he exerted his fast exhausting strength to reach the shore, which he accomplished with the last effort of his fainting energies. With great difficulty the horses were saved by the other members of the troupe, and we are happy to state that the company sustained the loss neither of life nor property. No blame is attached to the ferrymen, who behaved nobly and rendered invaluable aid.—[Baraboo Republic.

BIG PRICES.—We learn that George P. Delaplaine, Esq., has an offer of $12,000 for his residence and grounds being six lots adjoining the Capitol Square, to the South-west. The offer was not accepted.

Mr. Mills, on the corner opposite the Capitol House, asks $25,000 for the dwelling and three lots. He has been offered $22,500.

Judge Viles recently refused $18,000 for his splendid residence, near the bank of Lake Mendota.—[Madison Democrat.

THE SEASON.—Spring is upon us in all its beauty. Farmers are all busy, and the prospect for a good season is remarkably fine. Winter wheat never looked better, and it is to be regretted that no more was sown last fall. There is fear of frost, otherwise fruit will be good. Farmers and travelers from the eastern States throng our streets. Lands are high, and selling rapidly. This year will see the greatest influx of active men from the eastern States Wisconsin has ever had.—*Janesville Free Press.*

REMOVAL.—Ira Miltimore has been removed as one of the trustees of the Blind Institute, and James Neil appointed in his place. No reasons, it is said, were assigned for this removal, and in the absence of any knowledge of the causes or influences which induced it, we shall not attempt to assign any. We think, however, Gov. Barstow is gaining little credit by his action in the matter. The trustees of this institution receive no pay for their services, and the removal of Mr. Miltimore, as well as the refusal to re-appoint the Rev. Mr. Foote, under the unanimous recommendation of his former associates in the board, looks more like a personal or political movement than a watchful regard for the interests of the institute.—[Janesville Gazette.

SHOCKING IGNORANCE.—At the Bottisham petty sessions the other day, a youth, whose vocation is to gather dung from off roads, was charged with helping himself pretty freely from a farmer's manure heap, when the following colloquy took place:

Magistrate.—'Do you know the Lord's Prayer?'

Boy.—'Noa!'

Magistrate.—'Where do boys go to who tell a lie?'

Boy.—'Home, as soon as he has filled his barrow.—*Ipswich* (Eng.) *Express.*

EPISCOPAL CHURCH.—The building on the lot owned by the Episcopal Society, on Washington Avenue, is being repaired and put in order for the purpose of holding services in it. The Rev. Mr. Britton has accepted the call to become pastor of the Episcopal Church here.—[Madison Democrat.

☞ The farmers from up country report winter wheat as looking well. There will be a large increase in the amount of spring crops put in this year over last—probably more than double that of last year. We have an excellent market here for all that can be raised.—[La Crosse Republican.

The "Straw" of the Drowning Man!

Slavery received its first "home thrust" when the Compromise Measures of 1850 were enacted. It triumphed in those Measures, unquestionably; but it was a triumph which aroused the slumbering anger of the People. But the "vital stab" (which, like the first, came from the hands of its friends) was the passage of the Nebraska iniquity. That constituted the last drop in the bitter cup which had been prepared for the North, and made further forbearance a crime.

Nothing but the most inexplicable infatuation could have induced the enactment of that measure. What preceded it was hard to be borne.—But it *was* borne, partly from indolence, and partly from faith in the promise that it was to be a "final settlement" of the vexed question. This promise was implicitly relied upon by many, and many more desired to believe it made to be kept. Hence the almost universal "acquiescence" of the People in a series of measures which should (and did, in part) have stamped its authors with enduring infamy and perpetual banishment.

But this "acquiescence," proffered as a peace-offering, and pointed to as a guarantee of the good faith of the North, was received as new proof of subserviency, and used as an excuse for a more unjustifiable encroachment that had ever before been dreamed of, even by the most insolent apologist of Slavery. The Nebraska bill was passed, and the North was again insulted and humiliated. But *this* time not with impunity. In the hour in which that bill received the signature of the President the death-knell at once of the Administration and of the Slave Power was sounded. From that day to this, from Maine to Iowa, the People with unparalleled unanimity and emphasis, have been writing verdicts of condemnation against the men who have violated solemn Compacts and made a piratical War upon Freedom.

The Slave Power, and its drivelling, sneaking, cowardly allies, *feel the rebuke*, and realise, fully, that they are hopelessly doomed, *unless succor comes to them from some quarter hitherto untried*.

This succor they hope for from the "Hindoos." That Order, in this State, is controlled by "Silver Grays"—the "Union Savers" of '50, whom the People "spewed out of their mouth" for their pusillanimity and treachery. The same class of men are insiduously seeking (if they have not already secured) the control of the Order elsewhere. Slavery—which has been pilloried and lashed by the People in every Free State in the Union—is encouraged by the strenuous efforts the High Priests of that Order are making to accomplish this promised result. It is the "straw" at which they catch. It is their only hope; but it is so inspiriting, that the dying howl of Slavery has been already turned into a shout of anticipated triumph.

MEN OF THE NORTH! Will you suffer yourselves to be thus made the Slaves of Slavery—the cat's paws of "Dough-Faces" and Demagogues—the pliant instruments of the men whom you have once scourged for their betrayal of HUMANITY and FREEDOM? Pause, we beseech you, ere it is too late. Liberty courts the light. Slavery is among the "hidden things of darkness" against which we are warned by inspiration.—[Albany Ev. Journal.

(*From the N. Y. Commercial.*)

THE IMPORTANCE OF CORKS.—Though the prohibitory liquor law, if it should prove to be constitutional, may somewhat abridge the operation of "drawing the cork," other events seem to be giving importance, at least in the estimation of the Washington Union, to the growth of the cork tree and the cultivation of the domestic cork trade. That print announces that the Government in Washington has received from the South of Europe a hogshead full of of the acorns of the cork oak, which it is distributing through the middle and Southern states for experiment, and to test their adaptation to this climate. The Union thinks the experiment "will be a subject of great national importance, and that plantations should be stablished in various parts of the country for the purpose of growing this useful substance, *particularly in the event of a war between this country and Europe, in consequence of which the supply would be cut off.*" Whereupon the National Intelligencer humorously remarks:

Now, having long since learned that the Union does not choose to be understood by any body without the preliminary labor of study, it struck us on reading this official announcement about the propagation of the cork tree that there was a political meaning in it, if one would, as Shakspeare says, "observingly distil it out." There was evidently a kernel in this nut, if one could get at it; and we think we have it.

After pondering this curious paragraph about corks, it occurred to us that the country of the cork tree is Spain, and straightway, of course, we connected this idea with our Spanish relations; and, after some further thought, we educed from the Union's paragraph about the naturalization of the cork tree, a more encouraging idea of the pacific feeling and hopes of our Government than we have been able to extract from its professed explanation (*lucus a non lucendo*) of Saturday. We arrived at our *comforting* conclusion thus: The Government is sensible how great an inconvenience it would be to the country to have its supply of corks cut off by a foreign war.

Spain is the country from which we are chiefly supplied, and as Spain is the country with which we are most likely to be involved, it is proper, as well on the general principle of national independence as for the particular emergency, that we should be rendered independent of importation by naturalizing the tree in our country; and thus this large judicious of the importation of the cork tree acorns. Further: the cork oak (*quercus suber*) does not attain its growth, so as to mature its *cortex*, in *less than forty or fifty years; and we argue, therefore*, that, as the Government is providing by the planting of the tree for the interruption which a Spanish war will cause in our supply of corks, the President does not expect war to ensue much before our exotic trees shall come to maturity—namely, fifty years.

We think we have made out a good prospect of a long peace, much clearer than the Union, from its reasoning, has made out the probability of an early war.

Q. E. D.

The Wheat Crop—Prospect for Farmers.

For a series of years after the settlement of this State, the failure of the winter wheat crop was hardly known. Very little spring wheat was sown. This state of things was interrupted by *several years during* which winter wheat was nearly spoiled by rust or being winter killed.—Farmers came to regard it as unsafe to sow much, and sowed hedge-row instead, very generally. For a year or two past, however, there has been a change. Last year, and year before, the crop was good, although but comparatively little was sown. The present spring the appearance of the crop is decidedly favorable. The unusual snow of the past winter and the tardy approach of spring contributed to the result; and it is extremely probable that winter wheat will be a sure crop for a succession of years to come. Entertaining this belief, we hope that farmers will make preparation for sowing it more extensively the coming fall, than has been done for several years past. If the ground is well prepared and the wheat put in during the latter part of August, or the month of September, a bountiful reward will in all probability ecrue.

There never was a time when the farmers of Wisconsin had brighter prospects before them than at present. Their broad acres are fat with the vegetable mould that has been accumulating for centuries, in preparation for the advancing *hosts of civilization*. Easy of culture, teeming with the elements of productiveness, unlike the cold and *sterile soil of New England*, the earth rewards the husbandman with a many fold increase for comparatively little toil in preparing it. The prices of grain are high. There is little probability of a decline. The hope of speedy peace in Europe seems daily growing less. The richest grain producing portions of the continent, upon whose surplus the *millions* of Western Europe have relied for food as well as upon the harvests of America, *lie within the dominions* of Russia. That source of supply is therefore likely to be cut off, and America must supply the defect. Hence the continuance of highly remunerative prices is extremely probable. With such prospects before them our farmers will become encouraged to labor; and to leave as few tillable acres as possible, in unprofitable idleness.—*Madison Journal.*

AN ACT for the protection of lumbermen.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Section 1. That any person that shall willfully and without consent of the owner, take and appropriate to his own use any pine logs or other lumber, having thereon the marks of any other person or persons than those of the person so taking them, or who shall obliterate the marks of the owner of such logs or lumber, the same being upon the banks of or afloat in any of the streams of this state, out of which logs or lumber are usually driven, shall be deemed guilty of the crime of larceny, and shall be subject to all the provisions of chapter 134 of revised statutes, applicable to said crime.

SEC. 2. *Chapter 99 of the General Laws of* A. D. 1854, entitled "an act for the protection of logs and lumber found floating on the Wisconsin river," is hereby repealed.

SEC. 3. This act shall take effect from and after its passage.

C. C. SHOLES,
Speaker of the Assembly.
JAMES T. LEWIS,
Lieut. Gov. and President of the Senate.
Approved, March 29, 1855.
WM. A. BARSTOW.

GRAND RAPIDS.—On the 27th ult., 140 rapids pieces of lumber, were run over the Grand Rapids, averaging 22,000 to a piece; equal to 3,080,000 feet in one day. The lumber is passing these rapids at about the same rates daily.—*Wisconsin Pinery, May 5th.*

POLICE COURT.—May 8.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

Mary Conners was tried and found guilty of assault and battery upon Anna Randall, and fined $10.00 and costs.

COMPLAINT AGAINST A SCHOOL TEACHER.—A man named Scofield, accompanied by his daughter, a little girl named Esther, made application for a warrant against the female teacher in the Second Ward School, for ill treating the girl.—The little girl, it appeared from the statement of the applicant, was a few minutes too late in the morning, and for this was beaten with a ruler.—The arm was exhibited in court, and was badly marked and bruised. The Police Justice recommended the father to lay his case before the School Commissioners, and he left for that purpose.

OPERA TO-MORROW NIGHT.—The Opera of Norma will be performed for the second time to-morrow evening, by our Musical Society, for the benefit of their accomplished conductor, Mr. BALATKA. We hope to see, on this occasion, one of the largest and most brilliant audiences of the season. Mr. BALATKA certainly deserves a flattering and substantial benefit at the hands of our music loving public.

PROMENADE CONCERTS.—We have been for some time aware that a project was on foot to establish in our City a regular series of Promenade Concerts, similar to those so much enjoyed in Europe, but we did not think it was so near its consummation as we find to be the case. We learn from Mr. OTTO RUPPIUS, who is at the head of the enterprise, and who brings very flattering letters from Louisville, Ky., where he has formerly resided, that he will probably be able to commence next week. This gentleman seems to possess the energy and tact necessary to make the project successful. The design being to furnish music of varied character, Operatic Pieces, brilliant Waltzes and Polkas, &c., executed by a strong and well-drilled Orchestra, and this in a large hall, fitted with seats placed conveniently, so that parties may sit, or stand, or walk, or dance at will, or enjoy conversation, or refresh themselves with delicacies withal—all this, if carried out as we have reason to suppose that it will be, will make a very popular resort for our music-loving citizens, and we very cordially wish it success.

KEYSTONE STATE.—The fine steamer *Keystone State*, Capt. J. S. RICHARDS, chartered for the season in the Collingwood Line, arrived yesterday afternoon from Erie, where she has wintered, and came up the river to Dousman's dock where she now lies, and which dock she will leave for Chicago this morning at about 8 o'clock, at "reduced rates of fare" as the bills say.

The *Keystone State* is in "tip top" order, and looks as handsome as when she first came into port, being then the finest boat running around the lakes. In the new line in which she is chartered we do not doubt that she will vindicate her reputation as a fast and favorite boat.

The *Keystone State* brings 785 stoves, 46 cauldron kettles, and 3 bbls. sad-irons, to LANSING BONNELL, and 17 pieces machinery for owners on board.

FROM OGDENSBURGH.—The propeller *Lady of the Lake*, Capt. ROSSMAN, is the first steam vessel in from beyond the Welland Canal. She arrived yesterday afternoon, having left Ogdensburgh on the 4th, and came along in good time. *The Lady of the Lake* started with over 200 passengers, they and their baggage making most of the cargo. They are nearly all Eastern people, coming west for homes, and the majority are left at Sheboygan, Port Washington and this city.

Capt. ROSSMAN reports having met the propeller *Prairie State* at the Beaver Island, and the *Forest Queen* above Presque Isle. At Presque Isle he saw on the pier, the goods brought up by the *Niagara* last winter (which propeller went ashore in Presque Isle bay). The goods were in a very bad condition. The steamer *Fashion* was there and men were at work pumping out the schooner *Grand Turk*. The *Niagara* had been raised, and gone south.

RACING ON WEST WATER STREET.—We learn from a gentleman doing business on West Water street, that owners of "fast" horses are in the habit occasionally, of showing off their paces on that street, without regard to the City Ordinances, or to the safety to life and limb of the resident along that thoroughfare. Yesterday morning a regular race, with "hi! hi!" accompaniments, came off on that street. We suggest that the Marshal take a walk over there, and carry a copy of the City Ordinance with him.

PIANOS.—Attention is invited to the advertisement of F. C. MENDE, Spring St., of the pianos of which he is the agent, and particularly to the certificate from the London Exhibition in relation to the instruments for sale by him.

CLOTHING.—T. F. MENDE, Spring St., with the philanthropic desire to provide garments for all people, informs the readers of the *Sentinel* of his whereabouts and his stock, so that they may profit by it. His advertisement will be found in its place.

WATERTOWN R. R. DEPOT.—Workmen were busy *yesterday* in laying out the ground for the depot of the Mil. & Watertown R. R., on the lot north of the freight depot of the Mil. & Miss. R. R. Co. The building will be about 240 ft. long by 40 in width, and is, even now, much needed for the increasing business of the road.

REMOVAL.—By his advertisement, it will be seen that A. F. CLARKE has removed his real estate office from Wisconsin St. to No. 178 East Water St.

STEPPING ASIDE.—When the new brick stores walk into East Water street, the old frame ones generally walk off, making good headway to some new location on less frequented streets; but ATHEARN's extensive tobacco warehouse does not take that course. It only steps aside into Buffalo st., and leaves room for the new comer, while it enables the proprietors to continue business. The new buildings will be very sightly ones.

REAL ESTATE SALES.—Mr. J. Lockwood has sold to Mr. J. B. Green, of Cincinnati, 23 acres of land adjoining Gliddon & Lockwood's addition, in the First Ward of this city, for $1000 per acre. The same land was purchased a year ago for $200 per acre.

Lot 11, block 12 in the First Ward, was sold by Mr. Newhouse, to Messrs. Zellner & Bonns for $5500.

FROM CHICAGO.—The steamers *Traveller* and *Cleveland* both arrived yesterday afternoon from Chicago, bringing a large amount of freight, though but *few passengers*. The *Traveller* went on to Sheboygan, and returns this morning.

WISCONSIN FARMER.—The office of this excellent farmers' paper has been removed to Madison, where all letters and papers should be addressed.

UNITED STATES COURT.—The U. S. District Court adjourned Monday evening till the first Monday in June.

DWARF TREES.—A fine lot of dwarf standard trees are to be seen at HISLOP'S. See advertisement.

ENGINE COMPANY, No. 5.—The following resolution embodying a well-deserved compliment to the late Foreman of No. 5, was adopted at a meeting of the Company, Monday evening.

Resolved, That whereas Mr. Joseph Sprague, after having been a member of the Fire Department of Milwaukee seven years, and Foreman of this Company two years; the Fire Department have done themselves credit in electing him 2d Assistant Engineer.

Resolved, That while we deeply regret parting with him as an officer of this company, in doing so he has our entire confidence and support in the discharge of the duties of his new office.

IMMIGRATION.—The rush of immigration to the North-west through our city continues to flow on unabated. At a moderate calculation, from eight hundred to one thousand persons pass through daily. Our packet boats are full to overflowing every trip. There seems to be a perfect outpouring of 'down easters,' a slight sprinkling of Irish and German, and a large proportion are bound for Minnesota, through Northern Iowa and Wisconsin attracts a share. At this rate, all the good and valuable locations that are accessible in Minnesota will be absorbed this year, and then the wave will roll back, filling up equally as good a country, and in many respects more desirable, having a better soil, and being nearer markets.—Northern Iowa and Western Wisconsin have still much good vacant land lying contiguous to the Mississippi, and have a climate equally healthy with Minnesota.—[Galena Gazette, May 7th.

MURDER AND CONVICTION.—It seems that some weeks ago, a father and son—Germans—had a claim difficulty with a man in St. Croix county, Wisconsin, in which the latter was killed. The murderers have just been tried by the proper Court at Hudson, the father was sentenced to the State's prison for life, and the son for a period of years. We have neither the names of the parties nor any further particulars—the Hudson papers having as yet kept dark, so far as we have seen in regard to the affair.—*Minnesotian, May 4th.*

IMMIGRATION.—The number of persons going into the country northwest of us is immense.—Those who pass up the river by steamboat may be estimated, but we are told, that still larger numbers go in with their own teams by land.—The accession of population to that part of the country this year will probably be not less than two hundred thousand souls. A very large proportion of those we see are Americans.—[Galena Adv. 24th.

MARRIED.

In St. Paul's Church, May 8th, by Rev. Dr. Arnett, Rev. JAMES A. WOODWARD, Rector of St. Andrew's and St. Mary's Churches, Chester Co., Pa., to Miss ELIZABETH KISSAM, of Milwaukee.

DIED.

In this city, at 5 P. M., yesterday, at the residence of his father, James K. Marshall, CHARLES T. MARSHALL, aged 22 years.

The friends of the family are invited to attend the funeral at the North Presbyterian Church, corner Milwaukee and Martin Sts., at 2 o'clock P. M. to-day.

MARINE INTELLIGENCE.

FROM OSWEGO.—The staunch bark *Merrimac*, Capt. DAGGETT, from Oswego, rode out the gale, and came in yesterday, bringing 300 bbls and 10,000 bags salt, for J. McKAY.

FROM CLEVELAND.—The large schr. *J. H. Drake* arrived yesterday with 463 tons coal.

ARRIVED.—By private despatch last night, we learn that the brig *J. McBride*, from this port, arrived at Buffalo yesterday.

Arrived at Buffalo, 4th and 5th—

Prop. Saginaw, Plymouth, Nile and Dunkirk.

Cleared for Milwaukee same days—

Stmr. Lady Elgin, Schrs. J. Patton, Lady of the Lake and Fairfield.

FROM LAKE SUPERIOR.—The Sault Ste. Marie Canal is so far *completed as to* be ready *to* let in the water and pass vessels. The Prop. Manhattan was to leave the Sault on the 4th inst. for Ontonagon, with every prospect of getting through, as the navigation was clear at the foot of the Lake, as far as the eye could reach.

SAUT STE. MARIE.—Navigation is open to Saut St. Marie. The North *Star has* been up and returned, without meeting with any difficulty.

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, May 9, 1855.

REC'D BY MIL. & MISS. R. R., May, 7th:—85 bbls flour, 2931 bus wheat, 179 bus rye, 215 bus potatoes, 489 bus corn, 600 bus oats, 111 bus barley, 3 bbls pork, 5 bbls hams, 6 bbls highwines, 13 bales (2350 lbs) wool, 4 bbls eggs, 2 hides.

REC'D BY MIL. & WAT. R. R.—111 bbls flour, 480 bus wheat, 1094 bus potatoes, 480 lbs hides, 17 bus beans, 1 car hoop poles.

There was little change in the market yesterday, till after the news by the *Asia* arrived, and the lots at depot were disposed of. Spring Wheat brought 1,55a1,56, and winter 1,65a1,73. We note also a sale of 11,600 bus mixed at 1,57, and 2200 bus white winter at 1,63, both free on board.

The *Asia's* news was issued by us in an extra at about 3½ P. M., and gave confidence to dealers, and we shall probably have numerous transactions to notice; 500 bbls fancy flour, State Mills, sold in the *morning* at 8,85, and the same amount of the same brand, after the steamer, brought 8,75, inspection guaranteed. Also sales of 1000 bbls No. 1 flour at 8,80, and 700 bbls at 8,70.

We note no change in other articles of grain than wheat. *Oats* come in more freely, with sales at 55a56.

Corn—sold at 82a85.
Barley—in small lots at 102a106.
Rye—95a96.
Potatoes—56a60.

HOLLOWAY'S PILLS.—Debilitated Constitutions.—The wonderful power possessed by these Pills, are such, that they perform the most astonishing cures by restoring health when all other means fail; cases of debilitated constitutions by their use are completely invigorated, the delicate and weak are made strong. The daughter entering into womanhood, or the mother at the turn of life alike derive unspeakable benefit by the use of this mighty medicine. It is also recommended to the Citizens of the Union as an effectual remedy for general derangements of the system.

THE GOOD SAMARITAN.

A little girl crossing Broadway, above the mound, a day or two ago, was knocked down and badly bruised by the reckless driving of a drunken brute, who immediately put whip to his horse and made off. Several persons ran to see if the child was hurt. Whilst some cursed the driver—some pitied the child, and others wondered who she was—an old countryman got down from his wagon, drew from his pocket a bottle of Mustang Liniment, bathed the wounds upon the child, and carried her in a state of insensibility, to a neighboring house, which proved to be her home. Yesterday he had the satisfaction to see her quite well. "Ah!" said the old man, "I never knew it to fail—I always carry a bottle in my pocket;" and so he does.—*St. Louis Intelligencer.*

DR. C. P. FITCH,
Dentist,
(LATE OF NEW YORK CITY,)

HAS THE PLEASURE OF ANNOUNCING TO THE Citizens of Milwaukee, that he has opened Rooms in the Law Buildings, Wisconsin Street, FOR DENTAL OPERATIONS.

Dr. F. introduces to this community the New Method of constructing Artificial Dentures on Platinum, called DR. J. ALLEN'S

Continuous Gum Work,

combining cleanliness, great beauty, with life-like expression, strength, utility, and restoration of the form and contour of the face. This work is unequalled, and stands preeminently first, and will sooner or later take the precedent over the various kinds of Artificial Dentures manufactured in this or any other country. Specimens may be seen at his Room any time during office hours.

After twelve years experience in dental practice, Dr. F. takes great pleasure in warranting all operations in the mouth, such as Gold Stoppings, Gold Plates, Teeth on Pivots, Teeth regulated, cleansed and extracted, &c.

Strict attention will be paid to all diseases arising from or in any way connected with decayed teeth. Also, counsel given in reference to the management of children's teeth. Advice and counsel given without charge.

Office hours from 8 A. M. to 1 P. M., from 2 to 6 P. M., and from 7 to 9 P. M.

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is best to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, whilst it in no way interferes with, or undervalues these important institutions has claims which no other species of insurance can boast. Human existence must, on consideration, enjoy a much higher estimate than worldly property.

While the representative of a family lives, (although, through neglect to insure his property, he becomes bankrupt,) he supports his family; but at his death, disables their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comfort during life.

If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the premium is not increased.

Clergymen and others who have a stated and regular income, should insure, well knowing that, at their death their families may be left destitute,

All engaged in mer[illegible] and manufacturing pursuits ever varying and uncert[illegible] in their issues, should insure.

The farmer who has still mortgages on his farm, should insure, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

PIANO FORTES —AT— GREAT BARGAINS!

No. 11, Spring Street.

I INFORM THE PUBLIC OF MILWAUKEE AND vicinity that I will sell for one month, all the Pianos on hand, at

Boston Wholesale Prices!

Those who want to secure a GOOD TONED, CHEAP and WARRANTED PIANO FORTE, will find it to their interest to call early. I will sell elegant 6¾ octave, Rosewood, round cornered Piano Fortes at the

Extreme Low Price of $225 apiece.

These Pianos are all with the celebrated Patent American Action, manufactured by George Hews, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which is the following:

The American Action Piano at the Great London Fair.
Boston, August 14, 1852.

The undersigned, who were officially associated with the *Great Exhibition* in London, are happy to bear testimony to the commendations bestowed on the instrument manufactured by our townsman, Mr. George Hews, by gentlemen capable of appreciating both the tone of a Piano, as well as its external finish and elegance of workmanship. The unrivalled Pianist, Thalberg, who was on the musical jury, pronounced it one of the *sweetest* as well as *most perfect toned instruments* in the exhibition.

EDWARD RIDDLE, United States Commissioner to London Exhibition of 1851.
J. V. C. SMITH, M. D.

STATE OF WISCONSIN, } ss. IN PROBATE.
MILWAUKEE COUNTY, }

IN the matter of the proof and probate of the last will and testament of David Willmoth late of the county of Milwaukee, deceased. Whereas, an instrument in writing, purporting to be the last will and testament of David Willmoth, late of the County of Milwaukee, deceased, has been filed in this office; and whereas application has been made, by Admiral Willmoth and Benjamin S. Stimson, who are named executors therein, praying that the same be proven and admitted to probate according to the laws of this State. Therefore, it is ordered that said application be heard before me, at the Probate Office, in the City of Milwaukee, in said County, on the 3d day of July, A. D. 1855, at 10 o'clock A. M. And it is further ordered, that notice shall be given to all persons interested in said will of the time and place of said hearing, by publication in the Sentinel, a newspaper printed in said City, for three successive weeks, once in each week, prior to the time of such hearing. By the Court,

CHAS. E. JENKINS, County Judge.

IS AT

175 East Water Street.

A LARGE ASSORTMENT OF CHICKERING & SONS', BOARDMAN & GRAY'S, and other celebrated Pianos for sale at Manufacturers prices, which range from

$225 to $800

according to Size, Style and Finish.

The deservedly great reputation of these Instruments has induced unprincipled men to counterfeit them, and many of their vile imitations are being offered for sale throughout the West.

The subscriber, to guard the public against imposition would state that he is the only Agent in this City for Chickering & Son's and Boardman & Gray's Pianos and the only person who has the genuine article for sale. The certificates of Agency can be seen at his Warerooms.

☞ Old Pianos taken in part payment for new ones, and a liberal price allowed.

Laugh and Grow Fat.

A glance at the Young America—great novelty—four ladies with poney balls in hand, each intent on making the best strike—down goes the poneys furiously on the smooth glossy alleys, scattering the pins triumphantly on their course. Then comes the laugh that makes the languid frame all joy and gladness, and the whole system vibrates with unwonted vigor. This exercise is far superior to any other, for developing the system physically with renewed energy. Ladies will please bear in mind, that orders for the use of the alleys, should be left at least four hours previous to the time of coming.

ARRIVAL OF THE

ASIA!

ADVANCE IN BREADSTUFFS

Bombardment Progressing

NO HOPES OF PEACE.

[PRIVATE DESPATCH TO THE SENTINEL.]
New York, May 8.

Asia arrived. Flour advanced two shillings, wheat sixpence, corn three shillings. Lard 2s.—Consols declined ⅛d.

Bombardment progressing. Nothing decisive. Conference re-assembled, but adjourned without action. No hopes of peace. F. A. A.

Additional by the Asia.

New York, May 8.

The *Asia* arrived at Halifax about 10 P. M.—The Hermann sailed from Southampton on the 25th.

The latest news from the Crimea is to the 19th ult., from Lord Raglan, and 22d from the Russian commander. The bombardment still continued, but without any important result.

The French Exhibition at Paris had been postponed to the 10th or 15th of May.

AMERICAN PRODUCE.—Messrs. Brown, Shipley & Co., report sales of cotton for the week at 101,000 bales, of which 31,000 bales were to speculators and 15,000 for export. Market has been more active and prices have advanced ⅛a 3/16d per pound.

BREADSTUFFS.—Market considerably advanced and buoyant. Wheat advanced 6a8d; Flour 1s 6d 2s and Corn 3s. Western canal flour 38s 42s 6d; Ohio 43a45s; white corn 46s 6d; yellow [illegible] 6d a47s. Closed steady.

Messrs. Richardson, Spencer & Co.'s circular reports provisions unchanged, except Bacon, which has advanced 1s.

The *Asia* brings five days later news. Since the breaking up of the *Vienna conference* there have been several supplementary meetings of the five powers, without result. The Plenipotentiaries re-assembled on the 23d, and signed a protocol of the conference. Subsequently, another meeting of the four powers was held, at the request of Prince Gortschakoff, when further inadmissable propositions were made by the Russian Plenipotentiaries and rejected by France, England and Turkey.

Before Lord John Russell left Vienna, he had a private interview of two hours with Count Buol, the Austrian Prime Minister. Drouyn de L'Huys' departure was postponed for a few days, to discuss matters with the Austrian Government.

The general tone of opinion in England is, that the war must continue for a long period. The London Times speaks of the policy of the new Czar as more adverse than that of Nicholas, and it is so regarded throughout Europe.

SEBASTOPOL.—Nothing definite is known in regard to the condition of the siege. The general impression is favorable to the Allies, but the Russians return their fire in a splendid manner. A despatch received from Brussels reports a suspension of the bombardment, but it was not credited. The details of the news from the Crimea state to April 14th, that the bombardment continued night and day from 500 guns. The Mamelon tower had been silenced and some of the Round tower guns dismounted, but the Redan and Mardon batteries kept up a heavy fire. There was no immediate prospect of an assault. During the night of the 14th, a most sanguinary battle raged between the French and Russians, in which the French destroyed a Russian ambuscade in front of the Malakoff tower.

April 7th—Despatches to the French Government say that the French batteries maintained their superiority, as a mine had been sprung before the Flagstaff (Russian) battery, at a distance of 10 metres, by opening a new branch.

Bank Robbed.—Murder at Chicago.

Detroit, May 8.

Six thousand five hundred dollars of the money stolen from the *Peninsular Bank*, was recovered last evening, being thrown into the yard of the Cashier. The robbers yet retain the balance.

Chicago, May 8.

A man named *John McCarthy* was shot dead yesterday, about 6 P. M., in a beer saloon on Market street. McCarthy and some others had been drinking in the saloon, which is owned by one Ardenbaum, and a dispute arose, which terminated in a fight. Ardenbaum called for his revolver and shot McCarthy through the breast. The latter died almost instantly.—Ardenbaum surrendered himself to the officers. W.

Evening Despatch.

[EXCLUSIVELY FOR THE SENTINEL.]
New York, May 8.

About 4000 emigrants arrived yesterday.

A resolution has been introduced in the board of supervisors to tax the property held in Archbishop Hughes' name.

Additional by the Asia.

New York, May 8.

The London *Times* speak of the policy of the new Czar as more audacious than that pursued by his father.

Accounts vary as to the progress of the siege of Sebastopol. It is believed, that the *fire of the Allies* is superior, but is steadily returned. One despatch reports that the Allies had suspended the bombardment.

During the night of the 14th there was a terrible battle between a Russian sortie party and the French—perhaps the most sanguinary since Inkermann.

The situation of affairs was left satisfactory to the French.

On the 10th there was a Russian sortie, but it was repulsed.

The latest despatch from Gortschakoff, April 22nd says that after 12 days bombardment the fire of the allies was more slack, and caused little damage.

The telegraph is now complete from London to the Crimea, except a few miles near Bucharest.

The Russian Grand Dukes have gone to the Crimea. Menschikoff is not dead.

The Emperor expresses his satisfaction at Menschikoff's conduct.

The Roebuck Committee was still at work.

It is again reported that Napoleon will take command of the allies in the Crimea.

STARTLING RUMOR:—A Berlin writer says there is scarcely a doubt that negotiations have taken place between Austria and Prussia boding no good to the Western powers.

St. Louis Market,

St. Louis, May 5th.

Wheat buoyant—sales spring 1,60a1,68, mixed 1,70a1,90, red winter 1,90a2,35. Corn 85a90c.—Oats 57a58c. Mess Pork $15,75. Flour 9,50 for city superfine. Potatoes, under large supply, declined to 75 cts.

By a private dispatch from N. Orleans, of the 3d, it appears that flour continues to advance in that market. The quotations are—superfine flour $11; average price of corn $1,05 per bushel, oats 70c, bacon shoulders 7c, ribbed sides 8¾, prime bbl and tierce lard 10c.—*Republican.*

Washington, May 4.

THE BOOTH CASE.—In the case of the United States vs. Booth, of Wisconsin, for violation of the Fugitive Slave Law, a writ of error was obtained, returnable to the Supreme Court of the United States, for the purpose of determining the question of the limit of the jurisdiction between the courts of the States and those of the United States.

From Washington.

Washington, May 4.

Judge Lumpkin peremptorily declines the Judgeship in the Court of Claims.

Secretary Guthrie, with his family, has left for Kentucky, and will be absent for ten days.

John Van Buren arrived here to-day.

Fire in New York.

New York, May 4.

The Planing Mill and Coach Factory, 14 and 16 Amity Place, was destroyed by fire this morning.

Two dwelling houses adjoining were much injured. Loss about $25,000.

Bank Robbery.

DETROIT, Monday, May 7.

The Peninsular Bank has been robbed of $7,000 of their own notes dated April 1, 1855, numbered from 1000 to 13000, countersigned by S. M. Holmes, Treasurer.

POPULAR PATENT MEDICINES OF THE DAY,
IMPORTER OF FOREIGN DRUGS,
Chemicals, Essential Oils, Corks, Brushes,
AND OTHER USEFUL ARTICLES FOR DRUGGISTS & APOTHECARIES.

THE WHOLESALE DEPARTMENT

OF HIS ESTABLISHMENT HAS BEEN ENLARGED to meet the increasing demand in this branch of his business, and which will afford him the facilities for filling more promptly than ever, such orders as he may be favored with.

CITY AND COUNTRY CUSTOMERS

Will find at all seasons of the year, at this establishment, a more general assortment of goods than can be found at any similar establishment in the West.

S. JOHNSON, Jr. also offers

A. Bininger & Co's Choice Bottled Wines and Liquors,

Which Invalids may rely upon as being PURE. He would also particularly call attention to a few leading articles:

Lamp Oils,

Consisting of Pure Winter Sperm Oil, Pure Summer Sperm Oil, Refined Whale Oil, Neats Foot Oil, Solar Sperm Oil, Lard Oil, Sea Elephant Oil, Tanners' and Curriers' Oil.

Having purchased the above direct of the manufacturer, and in large quantities, he is enabled to sell at prices much below the ordinary market rates.

WINDOW GLASS.

This is made a heavy article of our business, keeping at all times a large stock, and selling at very low prices.—Our assortment comprises all sizes, from 7x9 up to 36x44, of French, English and American Glass, of single and double thickness.

Paints, Oils, and Dye-Stuffs,

Constantly on hand in large quantities, and which will be sold to dealers at a mere commission above cost.

Feeling aware of the necessity of goods destined for the country being well packed, I have engaged in my employ a PROFESSIONAL GLASS PACKER, so that all goods purchased of me will be received in good order.

PATENT MEDICINES.

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Billious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well, while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Billious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct. A. A. HAYES, Analytical Chemist of Boston and State Assayer of Massachusetts, whose high Professional character is endorsed by the—
Hon. EDWARD EVERETT, Senator of the United States.
ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.
ABBOTT LAWRENCE, Minister Plen. to England.
JOHN B. FITZPATRICK, Catholic Bishop of Boston; also,
Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by
Hon. W. L. MARCY, Secretary of State.
WM. B. ASTOR, the richest man in America.
S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines, has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera, to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

RHODES' FEVER AND AGUE CURE,

OR,
Nature's Infallible Specific.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats, and all other forms of disease which have a common origin in Malaria or Miasma. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the greatest discovery in medicine ever made.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, or other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in that season of the year which, while it is the most sickly, is their most valuable one in time.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade.

Trade circulars forwarded on application, and the attention will be considered on liberal terms to respectable parties in every section of the country.

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is there most safe to Insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, while it in no way interferes with, or undervalues those important institutions has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimate than worldly property.

While the representative of a family lives, (although, through neglect to insure his property, he becomes bankrupt,) he supports his family; but at his death, dissolves their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comforts during life.

If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the premium is not increased.

Clergymen and others who have a stated and regular income, should insure, well knowing that, at their death their families may be left destitute.

Men engaged in mercantile and manufacturing pursuits ever varying and uncertain in their incomes, should insure.

The farmer who has still a mortgage on his farm, should insure, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

No. 11, Spring Street.

I INFORM THE PUBLIC OF MILWAUKEE AND vicinity that I will sell for one month, all the Pianos on hand, at

Boston Wholesale Prices!

Those who want to secure a GOOD TONED, CHEAP and WARRANTED PIANO FORTE, will find it to their interest to call early. I will sell elegant 6¾ octave, Rosewood, round cornered Piano Fortes at the

Extreme Low Price of $225 apiece.

These Pianos are all with the celebrated Patent American Action, manufactured by George Hews, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which is the following:

The American Action Piano at the Great London Fair.
Boston, August 14, 1852.

The undersigned, who were officially associated with the *Great Exhibition* in London, are happy to bear testimony to the commendations bestowed on the instrument manufactured by our townsman, Mr. George Hews, by gentlemen capable of appreciating both the tone of a Piano, as well as its external finish and elegance of workmanship. The unrivaled Pianist, Thalberg, who was on the musical jury, pronounced it one of the *sweetest* as well as *most perfect toned instruments* in the exhibition.

The only place in this City where you CAN BUY A REALLY SUPERIOR

PIANO FORTE!
IS AT
175 East Water Street.

A LARGE ASSORTMENT OF CHICKERING & SONS', BOARDMAN & GRAY'S, and other celebrated Pianos for sale at Manufacturers prices, which range from

$225 to $800

according to Size, Style and Finish.

The deservedly great reputation of these Instruments has induced unprincipled men to counterfeit them, and many of their vile imitations are now offered for sale throughout the West.

The subscriber, to guard the public against imposition would state that he is the only Agent in this City for Chickering & Son's and Boardman & Gray's Pianos and the only person who has the genuine article for sale. The certificates of Agency can be seen at his Warerooms.

☞ Old Pianos taken in part payment for new ones, and a liberal price allowed.

Laugh and Grow Fat.

A glance at the Young America—great novelty—four ladies with poney balls in hand, each intent on making the best strike—down goes the poneys furiously on the smooth glossy alleys, scattering the pins triumphantly on their course. Then comes the laugh that makes the languid frame all joy and gladness, and the whole system vibrates with unwonted vigor. This exercise is far superior to any other, for developing the system physically with renewed energy. Ladies will please bear in mind, that orders for the use of the alleys, should be left at least four hours previous to the time of coming.

ARRIVAL OF THE

ASIA!

ADVANCE IN BREADSTUFFS
Bombardment Progressing
NO HOPES OF PEACE.

[PRIVATE DESPATCH TO THE SENTINEL.]

New York, May 8.

Asia arrived. Flour advanced two shillings, wheat sixpence, corn three shillings. Lard 2s.—Consols declined ⅛d.

Bombardment progressing. Nothing decisive. Conference re-assembled, but adjourned without action. No hopes of peace. F. A. A.

Additional by the Asia.

New York, May 8.

The *Asia* arrived at Halifax about 10 P. M.—The Hermann sailed from Southampton on the 25th.

The latest news from the Crimea is to the 19th ult., from Lord Raglan, and 22d from the Russian commander. The bombardment still continued, but without any important result.

The French Exhibition at Paris had been postponed to the 10th or 15th of May.

AMERICAN PRODUCE.—Messrs. Brown, Shipley & Co., report sales of cotton for the week at 101,000 bales, of which 31,000 bales were to speculators and 15,000 for export. Market has been more active and prices have advanced ⅛a ¼d per pound.

BREADSTUFFS.—Market considerably advanced and buoyant. Wheat advanced 6a8d; Flour 1s 6d a2s and Corn 3s. Western canal flour 38s a42s 6d; Ohio 43a45s; white corn 46s 6d; yellow 43s 6d a47s. Closed steady.

Messrs. Richardson, Spencer & Co.'s circular reports provisions unchanged, except Bacon, which has advanced 1s.

The *Asia* brings five days later news. Since the breaking up of the *Vienna conference* there have been several supplementary meetings of the five powers, without result. The Plenipotentiaries re-assembled on the 23d, and signed a protocol of the conference. Subsequently, another meeting of the four powers was held, at the request of Prince Gortschakoff, when further inadmissible propositions were made by the Russian Plenipotentiaries and rejected by France, England and Turkey.

Before Lord John Russell left Vienna, he had a private interview of two hours with Count Buol, the Austrian Prime Minister. Drouyn de L'Huys' departure was postponed for a few days, to discuss matters with the Austrian Government.

The general tone of opinion in England is, that the war must continue for a long period. The London Times speaks of the policy of the new Czar as more adverse than that of Nicholas, and it is so regarded throughout Europe.

SEBASTOPOL.—Nothing definite is known in regard to the condition of the siege. The general impression is favorable to the Allies, but the Russians return their fire in a splendid manner. A despatch received from Brussels reports a suspension of the bombardment, but it was not credited. The details of the news from the Crimea state to April 14th, that the bombardment continued night and day from 500 guns. The Mamelon tower had been silenced and some of the Round tower guns dismounted, but the Redan and Mardon batteries kept up a heavy fire. There was no immediate prospect of an assault. During the night of the 14th, a most sanguinary battle raged between the French and Russians, in which the French destroyed a Russian ambuscade in front of the Malakoff tower.

April 7th—Despatches to the French Government say that the French batteries maintained their superiority, as a mine had been sprung before the Flagstaff (Russian) battery, at a distance of 10 metres, by opening a new branch.

Bank Robbed.—Murder at Chicago.

Detroit, May 8.

Six thousand five hundred dollars of the money stolen from the *Peninsular Bank*, was recovered last evening, being thrown into the yard of the Cashier. The robbers yet retain the balance.

Chicago, May 8.

A man named *John McCarthy* was shot dead yesterday, about 6 P. M., in a beer saloon on Market street. McCarthy and some others had been drinking in the saloon, which is owned by one Ardenbaum, and a dispute arose, which terminated in a fight. Ardenbaum called for his revolver and shot McCarthy through the breast. The latter died almost instantly.—Ardenbaum surrendered himself to the officers. W.

Evening Despatch.

[EXCLUSIVELY FOR THE SENTINEL.]

New York, May 8.

About 4000 emigrants arrived yesterday.

A resolution has been introduced in the board of supervisors to tax the property held in Archbishop Hughes' name.

Additional by the Asia.

New York, May 8.

The London *Times* speak of the policy of the new Czar as more audacious than that pursued by his father.

Accounts vary as to the progress of the siege of Sebastopol. It is believed, that the fire of the Allies is superior, but is steadily returned. One despatch reports that the Allies had suspended the bombardment.

During the night of the 14th there was a terrible battle between a Russian sortie party and the French—perhaps the most sanguinary since Inkermann.

The situation of affairs was left satisfactory to the French.

On the 10th there was a Russian sortie, but it was repulsed.

The latest despatch from Gortschakoff, April 22nd says that after 12 days bombardment the fire of the allies was more slack, and caused little damage.

The telegraph is now complete from London to the Crimea, except a few miles near Bucharest.

The Russian Grand Dukes have gone to the Crimea. Menschikoff is not dead.

The Emperor expresses his satisfaction at Menschikoff's conduct.

The Roebuck Committee was still at work.

It is again reported that Napoleon will take command of the allies in the Crimea.

STARTLING RUMOR.—A Berlin writer says there is scarcely a doubt that negotiations have taken place between Austria and Prussia boding no good to the Western powers.

St. Louis Market,

St. Louis, May 5th.

Wheat buoyant—sales spring 1,60a1,66, mixed 1,70a1,90, red winter 1,90a2,35. Corn 85a90c,—Oats 57a58c. Mess Pork $15.75. Flour 9,50 for city superfine. Potatoes, under large supply, declined to 75 cts.

By a private dispatch from N. Orleans, of the 3d, it appears that flour continues to advance in that market. The quotations are—superfine flour $11; average price of corn $1.05 per bushel, oats 70c, bacon shoulders 7c, ribbed sides 8¾, prime bbl and tierce lard 10c.—*Republican*.

Washington, May 4.

THE BOOTH CASE.—In the case of the United States vs. Booth, of Wisconsin, for violation of the Fugitive Slave Law, a writ of error was obtained, returnable to the Supreme Court of the United States, for the purpose of determining the question of the limit of the jurisdiction between the courts of the States and those of the United States.

From Washington.

Washington, May 4.

Judge Lumpkin peremptorily declines the Judgeship in the Court of Claims.

Secretary Guthrie, with his family, has left for Kentucky, and will be absent for ten days.

John Van Buren arrived here to-day.

Fire in New York.

New York, May 4.

The Planing Mill and Coach Factory, 14 and 16 Amity Place, was destroyed by fire this morning.

Two dwelling houses adjoining were much injured. Loss about $25,000.

Bank Robbery.

DETROIT, Monday, May 7.

The Peninsular Bank has been robbed of $7,000 of their own notes dated April 1, 1855, numbered from 1000 to 13000, countersigned by S. M. Holmes, Treasurer.

PATENT MEDICINES.

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well, while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct. A. A. HAYES, Analytical Chemist of Boston and State Assayer of Massachusetts, whose high Professional character is endorsed by the—

Hon. EDWARD EVERETT, Senator of the United States.

ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England.

JOHN B. FITZPATRICK, Catholic Bishop of Boston; also

Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by

Hon. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely, acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

RHODES'
FEVER AND AGUE CURE,
OR,
Nature's Infallible Specific.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats, and all other forms of disease which have a common origin in Malaria or Miasma. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is declared to be the GREATEST DISCOVERY IN MEDICINE EVER MADE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in the summer season of the year which, when it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade. Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.

Providence, R. I.

☞ SOLE AGENTS IN MILWAUKEE, GREGG & BUTTON, who will give prompt attention to orders—and for sale by dealers generally.

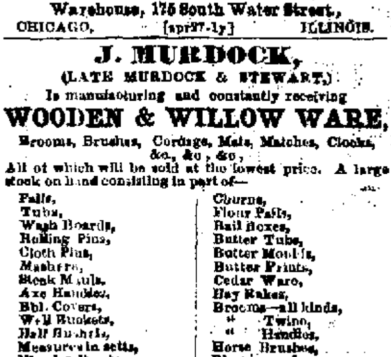
EVARTS'

Patent Shingle Mill.



EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market seventy-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

Lots in Sherman's Addition

THE FOLLOWING LOTS IN SHERMAN'S ADDItion, for sale. The titles to all these Lots are good. The difficulty concerning the title of said Lots has been removed by a decision of the United States Court; therefore there will be no more question about the title.

Now for another fact:—A more beautiful prospect cannot be found than Sherman's Addition. You have a full view of the City and Lake; for health it is not to be surpassed; the soil is rich, and I see no reason why property in Sherman's Addition should not command as good prices as in the First Ward; and it will if only a few individuals will commence and build fine houses. I, for one, will sell my present premises, and would agree to build in Sherman's Addition, Second Ward.

The foregoing Lots are sold to close up the estate of our late friend HOLLIDAY:

THE UNDERSIGNED WOULD RESPECTFULLY announce to the Public, that he has opened, on

Spring Street, Opposite the American House,

A NEW

PIANO FORTE WARE-ROOM!

Where he will keep on hand a good assortment of the celebrated

AMERICAN ACTION PIANO FORTES,

Manufactured by GEORGE HEWS, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist, L. M. GOTTSCHALK, to Mr Hews, Agent at New York:

New York, Dec. 8, 1853.

MR. N. J. CURTISS:—

Dear Sir: Having had the pleasure of performing upon Geo. Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.

Very Respectfully, L. M. GOTTSCHALK.

From the distinguished Pianist, WILLIAM MASON:

MR. HEWS:—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte.

WILLIAM MASON.

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

☞ Pianos to Let. Old Pianos taken in exchange, and liberal prices allowed.

☞ Pianos Tuned and Repaired.

QUEEN'S PATENT

PORTABLE

FORGE

AND

BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c. Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot-air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out-door work and for safety in-doors, this Forge has great advantages over others, having two Slides by which the Forge can be closely shut up, and for safety and many purposes in-doors, (particularly for Jewelers, Dentists and for chemical operations,) all the fumes from charcoal and acids being conducted through the smoke-pipe, or when open they are entirely out of the way; it is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U. S. Army and Navy. For sale by

COOK STOVE,

I have sold the B. J. for the past three years. It has been thoroughly tested by thousands who will testify that it is the most complete Cook Stove that can be. I have four sizes of B. J. There is a summer attachment to the stove which will make half difference less of the amount of fuel used in the Summer season and does away with all unnecessary heat which other stoves make that have not the attachment. The oven is much larger than any other stove of the same size furniture. I warrant the stove to give complete satisfaction; if not, to be returned and money refunded. I will refer you to hundreds of the citizens of Milwaukee that are using the Stove.

STATE PRISON CONTRACTS.

NOTICE TO CONTRACTORS.

The undersigned State Prison Commissioner, hereby gives public notice, that he will, at his office in the village of Waupun, Dodge Co., Wis., on the 10th day of May next, at 9 o'clock in the forenoon of that day, let to the highest and best bidder the labor or services of the convict. Mechanics in the Boot & Shoe; Tin; Painters & Glaziers; Tailors; Blacksmiths; Carpenters & Cabinet Shops. Bidders will present none but sealed proposals, and will state the price per day they will pay for the services of each convict in the several mechanic shops of the Prison, also the yearly rent they will pay for each shop. The services of the Prisoners and the rent of the shops to be paid quarterly.

The State will, if it sees fit, reserve the services of one mechanic in each shop to do the work of the State. The contracts to last from one to five years, and the number of hours to constitute a days work, to vary in proportion to the increase or decrease of the length of the days.—The State will also reserve the right to put in a limited number of apprentices in each shop, and all contracts will be made subject to the death, pardon, or expiration of the sentence of each convict.

Also the undersigned will, at the same time and place, let to the lowest and best bidder, a Contract for supplying the Prison, with all the Mess Pork; Corned Beef and Corn Meal; that may be required at the Prison the present year.

Also, a Contract for supplying the Prison with all the Pine Lumber and Char Coal that may be wanted at the Prison the present year. And a Contract for the services per day of two first rate Horse Teams, to haul away the excavations from the Basement of the Main Building of the new Prison.

Also, a contract for furnishing and delivering one hundred and fifty cords of rough or range Stone, to be delivered the present year.

Good and ample security will be required of each contractor for the truthful fulfillment of his contract, and each bidder will state the names and residence of three he proposes for security.

CITY LAND OFFICE.

I CALL YOUR ATTENTION TO one of the most Beautiful Farms in the State of Wisconsin, known as the

Walnut Hill Farm.

The description of it is as follows, given by the owner, and he offers it on easy terms:

The said Farm is situated upon the west end of Pewaukee Lake, two miles south of the village of Hartland, in Waukesha county, containing three hundred and fifty acres of land, well watered by springs, and has a mile of front on the lake—has a good new framed house and barn located upon the bank of the Lake, with good hard gravelled shores, and is surrounded with groves of fine hickory trees, which bore in abundance last season, there being about five hundred bushels on the premises.

The above Farm was one of the first locations made in Waukesha county, in 1836, and now has over one hundred acres under plough, in a fine state of cultivation—about sixty acres of good hay land, the balance timber—is all under fence, has a plank road within two miles on the north, and a good road within two miles on the south—the depot, at Hartland, on the Milwaukee and Watertown Railroad, is within two miles. Pewaukee Lake abounds with the finest kind of fish. The Farm is one of the best Stock Farms in all the Western country—none excepted. It is 25 miles from Milwaukee—5 miles from Waukesha.

Terms is one quarter cash—balance in 1, 2 and 3 years, with 7 per cent interest.

Now, who of you want a Farm? Here is a chance seldom offered; and it will be sold at a great bargain. Apply to apr18 CALEB WALL, Agent.

PATENT MEDICINES.

PROCLAMATION

To the Sick.

BRING hither "the poor, the halt, the lame and the blind," if you would have them healed of their many infirmities. We boldly and fearlessly assert that the Mustang Liniment will positively cure Rheumatism. Let any one who is afflicted with that most painful complaint try it thoroughly according to directions, and if they are not cured we will give them their money back. What more can we say? It will also cure the Piles. Thousands have tried it—and all were cured. Bruises, sprains, sores, Eruptions fade away as if touched with the Magician's wand. Its application to Burns or Scalds acts like "oil upon troubled waters." The tempest of pain and agony is is soon stilled, and the patient is hushed to quiet and peaceful slumbers. "There is a balm for every wound," and that balm is the Mustang Liniment. Everybody that sells medicine keeps it for sale. "Hold your horses," and if they are crippled, galled or sprained, use the Mustang Liniment. In a word it is

A BALM FOR EVERY WOUND, A CURE FOR Rheumatism, Scald-Head, Gout, Neuralgia, Caked Breast Stiff Joints, Lumbago, Sore Nipples, Bruises, Sciatica, Sore Shins, Cuts, Salt Rheum, Burns, Chafes, Tetter, Sprains, Galls, Piles, Ulcers, Spavin, Splint, Ring-Bone, Sweeny, Poll Evil, Scratches, sores, Hard Lumps or Tumors, and of all kinds of

Pains or Inflammation in Man or Beast.

RELIABLE EVIDENCE.

BLOOMFIELD, MO., January 15, 1854.

Messrs. A. G. BRAGG & Co.;

DEAR SIRS, Allow me to add my testimony to the excellent properties of your Mustang Liniment, in all cases of burns or scalds. I had a son badly burned on his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton, and nothing else, and in ten days it was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling-hot tallow and it had the same good effect.

Yours, truly, D. B. MILLER, County Judge.

RUSSELL COUNTY, ALA., Feb. 1, 1853.

For the benefit of the afflicted, I feel it my duty to state publickly the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon, or Whitlow on her finger. The Inflammation had been so extensive, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus, as it could do no harm, and might prevent mortification. To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned; the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief and cure were almost beyond belief; but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILLIPS.

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores; as well as piles, erysipelas, pains or lameness in the back, side or limbs, than rheumatism, any other remedy. These are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used, and never heard a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts, to induce those to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES.—It is put up in bottles of all sizes, and retailed at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty-five cent size in proportion to their cost. The large bottles are the cheapest.

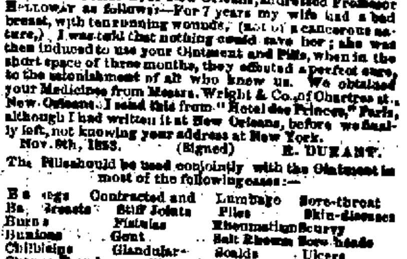
A CURE FOR ALL!!



HOLLOWAY'S OINTMENT

Citizens of the Union:—

You have done me the honor with one voice, from one end of the Union to the other to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short period. THOMAS HOLLOWAY,

80, *Corner of Ann and Nassau Streets, New York*

CURE OF SORE LEGS, AFTER 8 YEARS STANDING.

Mr. W. J. Langley, of Huntsville, Yadkin, North Carolina, suffered for nine years with one of the most painful and troublesome sore legs that ever fell to the lot of man; and after trying every medicine he had ever heard of, he resigned in despair all hope of being cured; but a friend brought him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal, and he entirely regained his health, to the astonishment of his acquaintances and friends.

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR.

Mr. R. DURANT, of New Orleans, addressed Professor HOLLOWAY as follows:—For 7 years my wife had a bad breast, with ten running wounds, (not of a cancerous nature,) I was told that nothing could save her; she was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs. Wright & Co., of Chartres st., New Orleans. I send this from "Hotel des Princes," Paris, although I had written it at New Orleans, before we finally left, not knowing your address at New York.

Nov. 8th, 1853. (Signed) R. DURANT.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs
Bad Breasts
Burns
Bunions
Chilblains
Chapped hands
Contracted and Stiff Joints
Fistulas
Gout
Glandular swellings
Lumbago
Piles
Rheumatism
Salt Rheum
Scalds
Sore nipples
Sore-throat
Skin-diseases
Scurvy
Sore-heads
Ulcers
Wounds.

☞ Sold at the establishment of Professor HOLLOWAY, 80, Corner of Ann and Nassau Streets, New York; also by all respectable Druggists and Dealers in Medicines throughout the United states, in Pots, at 37½ cents, 87 cents, and $1,50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

☞ There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

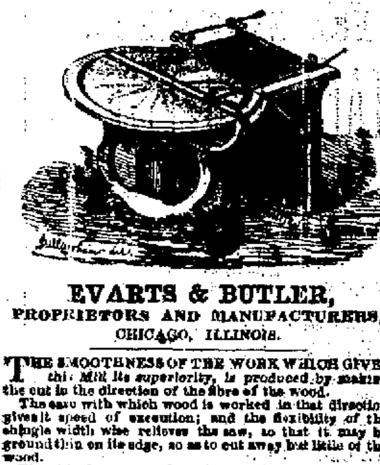
EVARTS' Patent Shingle Mill.



EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market seventy-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

Lots in Sherman's Addition

THE FOLLOWING LOTS IN SHERMAN'S ADDItion, for sale. The titles to all these Lots are good. The difficulty concerning the title of said Lots has been removed by a decision of the United States Court; therefore there will be no more question about the title.

Now for another fact—A more beautiful prospect cannot be found than Sherman's Addition. You have a full view of the City and Lake; for health it is not to be surpassed; the soil is rich, and I see no reason why property in Sherman's Addition should not command as good prices as in the First Ward; and it will if only a few individuals will commence and build one house. I, for one, will sell my present premises, and would agree to build in Sherman's Addition, Second Ward.

The foregoing Lots are sold to close up the estate of our late friend Holliday:

A NEW

PIANO FORTE WARE-ROOM!

Where he will keep on hand a good assortment of the celebrated

AMERICAN ACTION PIANO FORTES,

Manufactured by George Hews, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist, L. M. Gottschalk, to Mr Hews, Agent at New York:

New York, Dec. 8, 1853.

Mr. N. J. Curtiss:—

Dear Sir: Having had the pleasure of performing upon Geo. Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.

Very Respectfully, L. M. GOTTSCHALK.

From the distinguished Pianist, William Mason:

Mr. Hews:—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte.

WILLIAM MASON.

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

☞ Pianos to Let. Old Pianos taken in exchange, and liberal prices allowed.

☞ Pianos Tuned and Repaired.

QUEEN'S PATENT

PORTABLE FORGE AND BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c. Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot-air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out-door work and for safety in-doors, this Forge has great advantages over others, having two Slides by which the Forge can be closely shut up, and for safety and many purposes in-doors, (particularly for Jewelers, Dentists and for chemical operations,) all the fumes from charcoal and acids being conducted through the smoke-pipe, or when open they are entirely out of the way; it is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U. S. Army and Navy. For sale by

COOK STOVE,

I have sold the B. J. for the past three years. It has been thoroughly tested by thousands who will testify that it is the most complete Cook Stove that can be. I have four sizes of B. J. There is a summer attachment to the stove which will make half difference less of the amount of fuel used in the Summer season and does away with all unnecessary heat which other stoves make that have not the attachment. The oven is much larger than any other stove of the same size furniture. I warrant the stove to give complete satisfaction; if not, to be returned and money refunded. I will refer you to hundreds of the citizens of Milwaukee that are using the Stove.

STATE PRISON CONTRACTS.

NOTICE TO CONTRACTORS.

The undersigned State Prison Commissioner, hereby gives public notice, that he will, at his office in the village of Waupun, Dodge Co., Wis., on the 10th day of May next, at 9 o'clock in the forenoon of that day, let to the highest and best bidder the labor or services of the convict. Mechanics in the Boot & Shoe; Tin; Painters & Glaziers; Tailors; Blacksmiths; Carpenters & Cabinet Shops. Bidders will present none but sealed proposals, and will state the price per day they will pay for the services of each convict in the several mechanic shops of the Prison, also the yearly rents they will pay for each shop. The services of the Prisoners and the rent of the shops to be paid quarterly.

The State will, if it sees fit, reserve the services of one mechanic in each shop to do the work of the State. The contracts to last from one to five years, and the number of hours to constitute a days work, to vary in proportion to the increase or decrease of the length of the days.—The State will also reserve the right to put a limited number of apprentices in each shop, and all contracts will be made subject to the death, pardon, or expiration of the sentence of each convict.

Also the undersigned will, at the same time and place, let to the lowest and best bidder, a Contract for supplying the Prison, with all the Mess Pork; Cleaned Beef and Corn Meal; that may be required at the Prison the present year.

Also, a Contract for supplying the Prison with all the Pine Lumber and Char Coal that may be wanted at the Prison the present year. And a Contract for the services per day of two first rate Horse Teams, to haul away the excavations from the Basement of the Main Building of the new Prison.

Also, a contract for furnishing and delivering one hundred and fifty cords of rough or range Stone, to be delivered the present year.

Good and ample security will be required of each contractor for the truthful fulfillment of his contract, and each bidder will state the names and residence of those he proposes for security.

CITY LAND OFFICE.

I CALL YOUR ATTENTION TO one of the most Beautiful Farms in the State of Wisconsin, known as the

Walnut Hill Farm.

The description of it is as follows, given by the owner, and he offers it on easy terms:

The said Farm is situated upon the west end of Pewaukee Lake, two miles south of the village of Hartland, in Waukesha county, containing three hundred and fifty acres of land, well watered by springs, and has a mile of front on the lake—has a good new framed house and barn located upon the bank of the Lake, with good barn graveled shores, and is surrounded with groves of fine hickory trees, which bore in abundance last season, there being about five hundred bushels on the premises.

The above Farm was one of the first locations made in Waukesha county, in 1836, and now has over one hundred acres under plough, in a fine state of cultivation—about sixty acres of good hay land, the balance timber—is all under fence, has a plank road within two miles on the north, and a good road within two miles on the south—the depot, at Hartland, on the Milwaukee and Watertown Railroad, is within two miles. Pewaukee Lake abounds with the finest kind of fish. The Farm is one of the best Stock Farms in all the Western country—none excepted. It is 25 miles from Milwaukee—8 miles from Waukesha.

Terms is one quarter cash—balance in 1, 2 and 3 years, with 7 per cent interest.

Now, who of you want a Farm? Here's a chance seldom offered; and it will be sold at a great bargain. Apply to apr18 CALEB WALL, Agent.

PATENT MEDICINES.

PROCLAMATION

To the Sick.

BRING hither "the poor, the halt, the lame and the blind," if you would have them healed of their many infirmities. We boldly and fearlessly assert that the Mustang Liniment will positively cure Rheumatism. Let any one who is afflicted with this most painful complaint try it thoroughly according to directions, and if they are not cured we will give them their money back. What more can we say? It will also cure the Piles. Thousands have tried it—and all were cured. Bruises, sprains, sores, Eruptions fade away as if touched with the magician's wand. Its application to Burn or Scalds acts like "oil upon troubled waters." The tempest of pain and agony is soon stilled, and the patient is hushed to quiet and peaceful slumbers. "There is a balm for every wound," and that balm is the Mustang Liniment. Everybody that sells medicine keeps it for sale. "Hold your horses," and if they are crippled, galled or sprained, use the Mustang Liniment. In a word it is

A BALM FOR EVERY WOUND, A CURE FOR

Rheumatism, Scald-Head, Gout, Neuralgia, Caked Breast Stiff Joints, Lumbago, Sore Nipples, Bruises, Sciatica, Sore Shins, Cuts, Salt Rheum, Burns, Chafes, Tetter, Scalds, Galls, Piles, Ulcers, Spavin, Splint, Ring-Bone, Sweeny, Poll Evil, Scratches, sores, Hard Lumps or Tumors, and of all kinds of

Pains or Inflammation in Man or Beast.

RELIABLE EVIDENCE.

BLOOMFIELD, MO., January 15, 1854.

Messrs. A. G. Bragg & Co.,

Dear Sirs, Allow me to add my testimony to the excellent properties of your Mustang Liniment, in all cases of burns or scalds. I had a son badly burned on his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton, and nothing else, and in ten days it was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling-hot tallow and it had the same good effect.

Yours, truly, D. B. MILLER, County Judge.

RUSSELL COUNTY, Ala., Feb. 1, 1853.

For the benefit of the afflicted, I feel it my duty to state publicly the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon, or Whitlow on her finger. The inflammation had been so extensive, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus, as it could do no harm, and might prevent mortification. To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned; the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief and cure were almost beyond belief; but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILIPS.

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores; as well as piles, erysipelas, pains or lameness in the back, side or limbs, than rheumatism, any other remedy. These are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that over fifteen millions of bottles have been used, and never heard a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts, to induce those to try it who may never have had an occasion to use it. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES.—It is put up in bottles (full size) and retailed at 25 cents, 50 cents, and $1. per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty-five cent size in proportion to their cost. The large bottles are the cheapest.

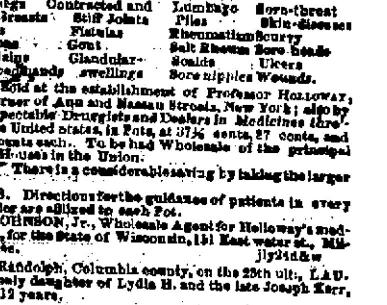
A CURE FOR ALL!!



HOLLOWAY'S OINTMENT

Citizens of the Union:—

You have done me the honor with one voice, from one end of the Union to the other to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short period.

THOMAS HOLLOWAY,

CURE OF SORE LEGS, AFTER 8 YEARS STANDING.

Mr. W. J. Langley, of Huntsville, Yadkin, North Carolina, suffered for nine years with one of the most painful and troublesome sore legs that ever fell to the lot of man; and after trying every medicine he had ever heard of, he resigned in despair all hope of being cured; but a friend brought him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal, and he entirely regained his health, to the astonishment of his acquaintances and friends.

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR.

Mr. R. DURANT, of New Orleans, addressed Professor Holloway as follows:—For 7 years my wife had a bad breast, with ten running wounds, (not of a cancerous nature,) I was told that nothing could save her; she was then induced to use your Ointment and Pills, which in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us.
